

Die Repair Technician

Client Summary:

This client is a global Tier 1 Automotive and Mobility Supplier that designs, engineers and manufactures Driveline and Metal Forming technologies to support electric, hybrid and internal combustion vehicles.

Location: Twinsburg, OH.
Job Type: Full-Time Onsite
Shift: 3rd from 11:00pm to 7:00am

Job Description:

- Principal Responsibilities: Repair, rebuild, and maintain casting and trim dies in a manner consistent with the original specifications, operating all machines and equipment associated with this process.
- Receive instructions and information from Team Leader and/or Supervisor.
- Transport, clean, disassemble, repair, and reassemble casting and trim dies, using lift trucks, die cleaning equipment, and cranes as necessary.
- Build and replace segments, cores, details, and parts from blueprints, using required tools or equipment.
- Draw polish or grind die cavity surfaces using required tools or equipment.
- Make repairs, remove stuck castings, correct dimensional problems, change cores and trim punches while casting and trim dies are mounted on machines.
- Perform welding duties in the foundry and the Die Repair Department.
- Troubleshoot all production tooling problems, performing repairs and maintenance as needed.
- Complete forms, die work orders, pictorials, signoffs, and records as directed.
- Keep work area, equipment, and department neat and orderly.
- Train new employees.
- Perform all other duties incidental to the safe and efficient operation of the tool and die repair department as assigned by supervision.

Required Qualifications:

- Associate's Degree, trade, technical school, or journey person certificate.
- 2-years of on-the-job training or Tool & Die Repair Journeyman papers, (preferred).
- Hands-on experience with draw polish or grind die cavity surfaces using required tools or equipment.
- Build and replace segments, cores, details, and parts from blueprints, using required tools or equipment.
- Perform welding duties in the foundry and the Die Repair Department.
- Must be able to perform highly skilled tasks and solve complex problems
- Ability to train new employees
