

Project Engineer

Marine Construction

Location: Long Beach, CA.

Job Type: Full-Time Direct

Job Summary:

Our client is seeking an experienced Project Engineer to support marine and heavy civil construction projects in Long Beach, CA. This role is hands-on, with daily field coordination, production tracking, and ensuring all work meets safety, quality, and project specifications.

What You'll Do:

- Work closely with superintendents and crews to plan and execute daily activities.
- Track production, materials, and equipment usage; prepare progress reports.
- Support safety and quality compliance (MSHA, OSHA, USACE EM 385-1-1).
- Assist with scheduling, surveying (topographic/bathymetric), and documentation.
- Coordinate with quarry operations and suppliers for material deliveries.
- Potentially serve as SSHO or QC Manager on USACE projects.
- Travel and out-of-town project work required (lodging provided).

What You Bring:

- Valid CA driver's license & ability to obtain TWIC. BS in Civil Engineering, Ocean Engineering, Construction Management, or related field.
- 5+ years' experience in marine/heavy civil construction (field/project engineering, superintendent, or similar).
- Proficiency in MS Office, AutoCAD, Bluebeam; strong document control skills.

Preferred Skills:

- USACE project experience; EM 385-1-1 training.
- Surveying (hydrographic/topographic) and Hypack experience.
- HeavyBid or other estimating software.
