FREEMAN SCHOOL DISTRICT SOLAR PROJECT

Freeman School District is excited to be working with Partners for Rural Washington and Zero Emissions Northwest who helped us secure a grant through the Washington State University Energy Program for the installation of a 100 kW solar ground mount system with projected installation in January 2026. Freeman has been exploring alternative ways to save energy costs, and this Solar Project is 100% grant funded and comes at no cost to our School District or taxpayers. The solar energy production will allow us to reinvest money back into programs for our students.

HIGHLIGHTS

- The ground mount solar panels will produce 100 kW of power and will be located east of the Transportation Building
- This project is 100% grant funded and comes at NO cost to the Freeman School District or our taxpayers
- This alternative energy source will allow us to reinvest utility costs back into student programs

NEXT MONTH

Be on the lookout for 2026 member applications in your mail and emails!

If you would like any information included in the November newsletter, please email northpalousechamber.com
