Spring Into Dance

Rehearsal Report: 1

Saturday, 4/5/2025

Rehearsal Summary:	Today's tech rehearsal went incredibly well! We stuck very thoroughly to our timeline and were able to get every piece on the docket teched and ready to go within their allotted period. It wasn't without its issues, as we did run into a few dimmer issues and light patching issues. We were able to get most of the resolved within the time frame we had. Riley and Mike stayed after to hopefully resolve the outstanding issues. Great tech everyone, and I look forward to finishing out the show tomorrow!

Production Notes

General Notes and Reminders

- Tomorrow we will be teching the remaining three numbers: *Loyalties*, *The In-Between*, and *Hot Mess*!
- Please reach out and ask folks to help with ushering! I will continue to extend invitations and ask for volunteers, but we are scarily low on ushers and need all of the outreach we can get!

Artistic Direction - J. Glaws

- Nothing at this time, thank you!

Scenic and Technical Direction - M. Legate, R. Chang

- Teasers for electric 1, 3, and 4 were set today.
- We cannot set the downstage teaser because it is attached to legs.
- We need to put in a teaser to cover second electric, we are going to shift one that is upstage in a negligible spot.
- We need to confirm if we are comfortable using the grand curtain as a teaser.

Properties - E. Gregory, R. Chang, Student Choreographers

- Ropes are going to be stored on the second highest prop shelf on SL. They will be locked up in the laundry room after every rehearsal and need to be set before each performance.
- Prop tables have been set on SL (shelf unit) and SR (small wooden table).

Lighting - S. Snow, M. Legate, R. Chang

- There were a few dimmers that were set to a threshold that made them unable to turn on until they were above 50%. The issue was resolved, but ate up some of our piece-specific work time.
- We are having issues with the patching of Channel 10. We're-patched it because it is patched to so many dimmers. The issue is that it will strobe when changing color. We tried to troubleshoot, but could not find a timely resolution. Mike and Riley are looking at it following tech rehearsal today.
- Channel 47 has the same issue as Channel 10, but was fixed.
- We need to patch house lights into the lightboard.
- The bottom lights on the cyc need to be focused and made functional.

Sound - Student Choreographers

- Music and projected introduction sounds were levelled today.

Costumes, Hair and Makeup - L. Goodwin, Student Choreographers

- Nothing at this time, thank you!

Stage Management - E. Gregory, R. Chang
