

# Concept Statement

A Midsummer Night's Dream centers around themes of love, magic, illusions, and reality. In our designs, we will be deconstructing and alluding to the silhouettes and styles of the European Renaissance. We will then view them through a fantastical and abstractified lens of the 4 elements; Water, Air, Earth, and Fire.

To explore the differences between the 4 groups, each of them will be rooted in an element to inform texture, weight, color, detail, and how they connect back to the central themes of magic, illusions, love, and reality.
