

# CATALINA CUP

**What is Catalina Cup?** It's an inter-club competitive series of events among Tucson area women's golf clubs.

Each club sends three two-person teams to each event including a range of A, B and C players. Each player has a maximum handicap index of 26.0. The format is match play and each team competes in low gross and low net events. One point is awarded on each hole for low gross and one point for low net. Ties earn ½ point. Points accumulate over the season to determine the season-long winners of gross, net, and overall.
