**PREVENT WATER FROM COLLECTING
IN THE BOTTOM OF YOUR DINGHY**

INTEGRAL GEL CELL BATTERY

STRONG 3/16" PVC PLASTIC CASE

**AUTOMATIC FLOAT SWITCH
DETECTS AND DRAINS WATER**

BATTERY IS RECHARGED BY THE SUN

1 YEAR WARRANTY

MODEL # 750 -7AH-G

This compact, self-contained Solar Bilge Pump lives in the bottom of a dinghy or other small craft. A float switch inside the unit detects incoming rain water. The pump will then activate and will discharge the water through the $\frac{3}{4}$ inch discharge outlet. Connected to the outlet is a drain hose which is ran overboard. There is also a test switch on the side of the unit

There is a 2 watt solar panel mounted to the top of the enclosure in order to keep the interior battery charged and at peak condition when exposed to sunlight.

SPECIFICATIONS:

Pump rate: 750 GPH
Discharge Outlet: 3/4"
Battery: 7AH
Weight: 10 Lbs
Solar charge: 2 watt
