# KITCHENETTE & CAFE SEATING -

The fully equipped kitchenette features a basin sink with matching fixtures, a paneled dishwasher, refrigerator, and freezer, as well as a microwave. Large overhead cabinets provide ample storage for staff use.

The cafe seating area includes two tables with four chairs each, for staff meals, breaks, or meetings. The wood of the millwork paired with green accents was inspired by the beautiful Grove where SGF hosts their annual concerts.

# CAFE SEATING & DESK GROUPS -

Beyond the cafe area lies two desk groups, each comprised of six adjustable standing desks. Every desk is equipped with a Herman Miller modular storage unit that locks for staff convenience.

Each workstation also has a highly adjustable Steelcase Think chair. The desks, chairs, and storage pedestals were all sourced through a local office systems reseller, which allowed the sourcing of high quality pieces within budget.

# CONFERENCE ROOM -

The spacious conference table can comfortably accommodate up to twelve people. Carpet and acoustic tiles in the space absorb excess noise, making it the perfect space for meetings in-person or online.

The horizontal lighting fixtures employed in the rest of the office are placed in zig-zag formation, for visual intrigue and even dispersal of light across the conference table.
