

Congressional Candidate

**Ron DiNicola
accepts campaign
contribution from
convicted sex
offenders. Dan
Susi was convicted
of a Sexual Assault
on one of his
clients whom he
was representing
in a juvenile court
case.**

Ron DiNicola is all form over substance, speaking without saying anything. He calls for action on the Opioid Epidemic but fails to acknowledge the government's role in creating the problem. He calls for Jobs and infrastructure spending but says nothing about how he will pay for it. He is in favor of a government Health Care system that in practice, has increased costs. Ron DiNicola wants more spent on Education but again, offers no plan to pay for it. He wants to "guarantee" Social Security & Medicare but refuses to acknowledge that the programs are going bankrupt because the money has already been spent. Ron Dinicola talks about the middle class deserving their fair share but fails to admit what has harmed the middle class such as the inflationary policies of the Federal Reserve and the lack of hard money. Ron DiNicola accepts large contributions from Political Action Committees.

Ebert G. "Bill" Beeman pledges he will work to end crony capitalism. No more bailing out big banks. No more sweet heart deals for the connected. Bill will work to eliminate the federal income tax. He will introduce legislation to shut down the NSA, the TSA and end mass surveillance. Bill will introduce legislation to end the failed policy of drug prohibition that is fueling the Opioid Epidemic. Bill will work to downsize the military and bring our troops home. He will work to expand health freedom to make Health Care affordable, safe, and effective. He will advocate for replacing Congresses' privileged government pensions with social security, giving them an incentive to actually fix the problem instead of kicking it down the road. Bill is in favor of imposing term limits. He will replace government meddling in money with marketplace discipline and require government financial transparency.

Paid for by Ebert Beeman for Congress

And of course, Bill won't accept campaign contributions from convicted sex offenders, corporate donors, PAC's or other nefarious types.
