Mr. Marcus Volks

Forewords From Our Production Engineer

The business year of 2015 was a very successful one for LAPEKTO LAPEL Group. We generated the best operation result in the company's history of the acacia wood sustainable materials. To continuing consolidation who has private land. No other exporter or manufacturer company in Philippines could achieve growth than Lapekto Lapel. Our materials is the most successfully produced to cycle the turned its business of wooden acacia kitchenware, dinnerware and houseware. We are continue enhancing and studying for our strong growth to compete the International business.

Change in trade is rapidly fast by the new era of digitalization of technology. We can seize every possible opportunity to positively shape our future. We are investing continuously in the modernization of our future.

Sincerely Your's,

Mr. Marcus Volks

TO THE BUYER

LAPEKTO LAPEL has been delighting its customer with quality products. We practice our craftsmanship and expertise supplying to the exporters before we come into export. We are now recognized as one of the biggest Direct Planters, Manufacturer and Exporter of Acacia Wooden Products in the Philippines. All of our wood is ecologically forested from private lands and we have complete certification issued by the Department of Environment and Natural Resources. Acacia Wood is fast growing and non-endangered tree.

We are direct planters of acacia tree. Our partner has 450 hectares acacia land plantation We committed to implementing and achieving sustainable forestry where it procures raw material including wood. To practice sustainable forestry is to meet the needs of the present without compromising the environment. To protect the future generations to meet their own needs by practicing a land stewardship ethic that integrates reforestation and the managing, nurturing, growing and harvesting of trees for useful products with the conservation of the soil, biological diversity of wildlife. We are committed and compliant with all national laws and regulations. We reforest the following harvest and used best management practices.

CUSTOMS MEMORANDUM ORDER (CMO)
NO. 50-2019

SUBJECT: GUIDELINES ON THE IMPLEMENTATION OF THE REGISTERED EXPORTER SYSTEM (REX) FOR EXPORTERS UNDER EUROPEAN UNION - GENERALISED SYSTEM OF PREFERENCES (EU-GSP)

Section 1. Scope. This Order shall govern the guidelines on the implementation of the Registered Exporter System (REX), a system of self-certification of origin by Registered Exporter, the Rules of Origin of which are laid down in the EU Delegated Regulation No. 2015/2446 and EU Commission Implementing Regulation 2015/2447 of the Union Customs Code (EU Regulation No. 952/2013).

Section 2. Objectives.

- 2.1. To establish an appropriate mechanism in the registration of exporters, producers, and manufacturers as "Registered Exporter", including the modification and revocation of its registration as such.
- 2.2. To simplify export formalities by allowing "Registered Exporters" to certify preferential origin through a Statement on Origin.
- 2.3. To facilitate application and provide procedures on how to qualify under the Registered Exporter System.

Section 3. Definition of Terms. For the purpose of this CMO, the following terms are defined accordingly:

- 3.1. **Export Division/ Unit** – shall refer to the division or unit within any of the Collection Districts of the Bureau which is responsible for the evaluation of the requirements submitted by the applicants for registration to REX.
- 3.2. **Export Coordination Division (ECD)** – shall refer to the division under the Assessment and Operations Coordinating Group (AOCG) and Port Operations Service of the BOC which shall issue the REX number to the application endorsed by the Export Division/Unit concerned.
- 3.3. **Product Evaluation Report** – shall refer to the document which contains the result/s of the pre-evaluation of export products applying for CO, after complying with the requirements of the Bureau.
- 3.4. **Registered Exporter** – shall refer to a producer, manufacturer, or trader who complied with the requirements set forth in the Delegated Regulation (EU) No. 2015/2446 and Commission Implementing

Company Diagram System

Company Information

Utilization

For Acacia Wood Factory

We have complete utilization to export. We have four (4) aluminum truck vans for L.C.L. delivery. We have tractor head with combo chassis for bringing the container vans to the Port. Our Wood factory in the province of Isabela has four thousand nine hundred eighty eight square meter (4,988) with complete machineries. We have one community we called one barangay working with us.

With all these we are capable to comply volume order.

Trade Expositions

We are regular participating trade exhibitions and trade fairs locally. the Manila F.A.M.E. International held twice a year every April and October in Manila, Philippines.

Clients

We have huge clients that is located in different continents around the globe like in USA-50%, Europe-20%, Canada-10%, Asia-15% and Middle East-5%.

Minimum Order and Mode of Payment

Our minimum order quantity is US \$5,000.00 worth of goods. Payment Telegraphic Transfer (T/T) payment, we require 30 to 50% down payment and full payment upon email copies of all shipping documents and will send all the originals upon receipt of remittance

Affiliations

We are affiliated with Philexport (Philippine Exporters Confederation, Inc.), HAPI (Home Accents Group of the Philippines Inc.)

Vision

To one day make our company rose among the ranks of the best handicraft exporters in the Philippines.

Mission

To continuously promote the ingenious craftsmanship of Filipinos around the world. In return of helping our workers and poor community. To bring foods to their children. And give them a better and descent life

Company Legislation

Company Legislation

Terms & Condition for Sale

The following terms and condition shall form part of any contract concluded between Lapekto Lapel Paper Mache And Wooden Products International (hereafter called "The Vendor") and the Purchaser. Such contract shall be deemed to incorporate the conditions set out below to the exclusion of the Purchaser's or any other conditions from whatever source.

Prices

All quotations are made and orders accepted on the basis that goods/services will be charged at the price ruling on the date of delivery.

Payment

Irrevocable Letter Of Credit at Sight in our Favor, or 50% deposit in Advance (after having receipt out order confirmation) and 50% when goods are ready to be shipped.

Or unless otherwise agreed in writing between the Vendors and the Purchaser, the Purchaser shall pay all the invoices in full on or before 30th day from the invoice date. Prompt payment is a condition precedent to future deliveries.

If the Purchaser fails to pay any invoices in full by the due date then without prejudice to its other rights (including the right to withhold delivery of the future installments of an order) the Vendors shall be entitled to interest on the overdue amount at the rate of 1% over bank rate (MLR per month ruling at the time the debt is overdue. Interest will be chargeable to all overdue amounts from the day that the debt becomes overdue until the date payment is received in full.

Title to Goods Supplied

Not with standing the sale of products to the Purchaser, beneficial ownership and legal title to the goods shall remain with the Vendor until payment in full has been received. If the goods or any of them are resold before such payment in full the Purchaser will hold the proceeds of sale on behalf of the Vendor. The Purchaser authorizes the Vendor and its agent at any time until title passes to the Purchaser under these Conditions to enter any premises where the goods or the proceeds of sale thereof are kept to take possession thereof.

Risk and Damage in Transit

- a) In the event that the goods are to be delivered by the Vendor the risk therein shall pass to the Purchaser at the point in time the goods are unloaded from the Vendors or nominated carriers or vehicle.
- b) In the event that the goods are to be collected by the Purchaser from the Vendor premises the risk therein shall pass to the Purchaser when the goods are physically handed over to the Purchaser, his carrier or other agent.
- c) No claims for loss or damage in the transit will be considered unless such claims is received by the Vendor in writing in 7 days of the date of the delivery. If a claim is established the liability of the Vendor will be limited to replacing or repairing the missing or damaged product or at the Vendor's option refunding the Purchase Price.

Substitution

The Vendor may from time to time substitute the merchandise which will be of their equal or better value in order to assist the Purchaser.

Return of Goods

- a) The return of goods delivered or collected to or by a Purchaser will not be allowed without prior agreement with the Vendor. Goods are not supplied on a 'sale or return' basis and it is a condition of sale that the Vendor has an exclusive right to refuse the return of goods if in the Vendor's judgment the reason for return is unreasonable. This condition in no way affects the Vendors title to goods until time of discharge of debt.
- b) Any application to return of goods must be made by the Purchaser within 7 days of delivery date
No application to return goods will be considered outside the limit.
- c) The Vendor reserves the right to charge all handling fee and cost of at least 15% on the value of any goods returned.

Cancellation of Orders

Cancellations of orders for goods or services the Purchaser will only be accepted if received in writing 30 days Prior to delivery by the Vendors and cancellation once the Purchaser order has been put into process will automatically incur a liability for any materials, labor costs, expenses and other related charges applicable to that order from the start of the process to the stage reached at the time of cancellation.

Sub Contracting

In the case of goods manufactured, the Vendor reserves the right to sub-contract any orders or part thereof accepted from the Purchaser without giving notice to the Purchaser at any stage.

Force Majeure

The due performance of the Contract is subject to cancellation or variation by Vendor as a result of any Act of God, War, Riots or Civil Disturbance, Strike, Lock Out or other dispute, Fire, Flood, Drought or Accident, legislation, Requisitioning or other cause (whether of the foregoing clauses or not) beyond the Vendor's control. In such event, no liability shall attach to the Vendor by reason of cancellation or variation of any Contract Variation of Terms.

Any variation of terms and Conditions of any Contract shall become binding only if confirmed in writing by the Vendor and the Purchaser.

Effect of Legislation

If any of these case conditions or any part of one of these conditions are rendered void by any legislation to which it is subject 'The Contract' shall be void to the extent only.

Product Development and Production:

TEST REPORT

NUMBER : DELH22004215
DATE : 20TH APRIL, 2022

TEST CONDUCTED:

1.SPECIFIC MIGRATION OF PHTHALATE:

SOLVENT EXTRACTION FOLLOWED BY GC-MSD ANALYSIS

TEST CONDITION: 3% ACETIC ACID AT 70°C FOR 02 Hours

TESTED COMPONENTS	RESULT (PPM)		
	1 st Migration	2 nd Migration	3 rd Migration
DIBUTYL PHTHALATE (DBP)	ND	ND	ND
DIETHYL HEXYL PHTHALATE (DEHP)	ND	ND	ND
BENZYL BUTYL PHTHALATE (BBP)	ND	ND	ND
DI-ISO-NONYL PHTHALATE (DINP)	ND	ND	ND
DI-N-OCTYL PHTHALATE (DnOP)	ND	ND	ND
DI-ISO-DECYL PHTHALATE (DIDP)	ND	ND	ND

Limit: Individual Less than 0.1% (1000 ppm)

Tested Item: SQUARE SAUCER / OVAL SAUCER

2.SPECIFIC MIGRATION OF FORMALDEHYDE:

TEST SPECIFICATION(S) / REGULATION(S): COMMISSION REGULATION (EU) NO. 10/2011, EU 2020/1245 & ITS AMENDMENTS

SIMULANT USED	TEST CONDITION	RESULT IN (mg/kg)	MAX. LIMIT (mg/kg)
3% ACETIC ACID	70°C FOR 02 Hours	<5.0	15

Tested Item: SQUARE SAUCER / OVAL SAUCER

REMARK: < = LESS THAN
RESULTS ARE GIVEN IN mg/kg
DETECTION LIMIT: 5.0 mg/kg

3. PENTACHLOROPHENOL (PCP) TEST

TEST METHOD: (KOH EXTRACTION FOLLOWED BY 64 LFGB -82-02-8)

TESTED COMPONENT	RESULTS	LIMIT
SUBMITTED SAMPLE	COMPLIES SQUARE SAUCER / OVAL SAUCER: NOT DETECTED	<5 mg/kg

< = LESS THAN
DETECTION LIMIT= 0.05 PPM
PPM= PARTS PER MILLION

TEST REPORT

NUMBER : DELH22004215
 DATE : 20TH APRIL, 2022

4. POLYCHLORINATED BIPHENYLS (PCB)

TEST METHOD: SOLVENT EXTRACTION FOLLOWED BY GC-MS ANALYSIS

TESTED SAMPLE	RESULTS	REQUIREMENT
SUBMITTED SAMPLES	PCB-28: NOT DETECTED PCB-52: NOT DETECTED PCB-101: NOT DETECTED PCB-118: NOT DETECTED PCB-138: NOT DETECTED PCB-153: NOT DETECTED PCB-180: NOT DETECTED PCB-209: NOT DETECTED	25PPM MAX.

Tested Item: SQUARE SAUCER / OVAL SAUCER

5. EXTRACTABLE HEAVY METAL:

Method: Acid Digestion and Analysed By ICP-MS.

Test Name	Test Result (ppm)	Requirement (ppm)
Lead (Pb)	Not Detected	< 90
Cadmium (Cd)	Not Detected	< 75
Mercury (Hg)	Not Detected	< 60
Chromium (Cr)	Not Detected	< 60
Arsenic (As)	Not Detected	< 25

Detection Limit: 10 ppm

Tested Item: SQUARE SAUCER / OVAL SAUCER

END OF TEST REPORT

This report is made solely on the basis of your instructions and/or information and materials supplied by you. It is not intended to be a recommendation for any particular course of action. Intertek does not accept a duty of care or any other responsibility to any person other than the Client in respect of this report and only accepts liability to the Client insofar as is expressly contained in the terms and conditions governing Intertek's provision of services to you. Plant and Plant Product Declaration Form

U.S. DEPARTMENT OF AGRICULTURE
ANIMAL AND PLANT HEALTH INSPECTION SERVICE

Section 3 Lacey Act Amendment (16 U.S.C. 3371)

Applicability of Declaration:

You are required to complete this form if you are importing any of the following:

Any wild member of the plant kingdom, including roots, seeds, parts, or products thereof, and including trees from either natural or planted forest stands, except:

1. Common cultivars, except trees, and common food crops (including roots, seeds, parts, or products thereof);
2. * Scientific specimens of plant genetic material (including roots, seeds, germplasm, parts, or products thereof) that are to be used only for laboratory or field research;
3. * Plants that are to remain planted or to be planted or replanted; or
4. Plants used exclusively as packaging material to support, protect, or carry another item, unless the packaging material itself is the item being imported.

* You must still complete this form if you are importing plants described under 3. and 4. that are listed:

- In an appendix to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (27 USC 1887; TIAS 8249);
- As an endangered or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.); or
- Pursuant to any State law that provides for the conservation of species that are indigenous to the State and are threatened with extinction.

Homage to Wood

In the hands of seasoned craftsmen, acacia wood yields its gifts. The company's tableware series, that includes trays and bowls of various profiles and delicate shapes, displays the material's largest grains that in themselves serve as subtle decorative details, unique to every piece.

Ambiente is considered as the leading consumer goods trade fair in the world, with an average of 137,000 visiting trade buyers from 143 countries, and more than 4,000 exhibitors from 95 countries. It is the primary venue where trends for the international consumer-goods industry over the coming year are defined, and the go-to sourcing destination of buyers from the international contract market, particularly hotel, restaurant, and catering (HoReCa) sectors.

“With a diverse range of buyers from all over the globe coming together in one enormous sourcing event, Ambiente opens up countless doors of trade opportunities for Philippine exporters,” CITEM Executive Director Rosvi Gaetos said.

The Philippine collective under CITEM re-established its presence in Ambiente last year, yielding total export sales of \$2.5 million. For the upcoming Ambiente 2017 edition, 14 Philippine home exporters under the “Lifestyle Philippines” brand shall be concentrated at the fair’s Living Hall, targeting total export sales of \$3 million. Living is one of the three main hall organizations of Ambiente in which international exhibitors showcase their home products ranging from accessories, interior designs, indoor and outdoor decorations, and avant-garde furnishings.

Lapekto Lapel pays homage to the acacia wood's natural beauty through a showcase of its high-quality dinnerware

The Manila Times®

14 PH exporters to join 'Ambiente' trade fair

The Center for International Trade Expositions and Missions (CITEM) sustains its creative collaboration with the Design Center of the Philippines (DCP) and Export Marketing Bureau (EMB) to strengthen the Philippines participation in Ambiente, to be held from February 10 to 14 at Messe

Frankfurt in Germany.

Ambiente is considered as the leading consumer goods trade fair in the world, with an average of 137,000 visiting trade buyers from 143 countries, and more than 4,000 exhibitors from 95 countries. It is the primary venue where trends for the international consumer-goods industry over the coming year are defined, and the go-to sourcing destination of buyers from the international contract market, particularly hotel, restaurant, and catering (HoReCa) sectors.

Our Sustainable Materials

Our sustainable materials is the pride of our company. We have affiliates private land with 450 hectares acacia plantation. They started planting acacia tree during their younger age. And now the acacia tree mutiply more than we expected. This is the very important in our bussiness .

WHY LAPEKTO LAPEL? WHY ACACIA ?

**BECAUSE WE CARE
THE CUSTOMER
THE PRODUCT
THE ENVIRONMENT**

WHY LAPEKTO LAPEL?

Lapekto Lapel: Using certified ecologically anti insect (bokbok) food grade treatment, certified ecologically antifungi and black molds treatment food grade, certified ecologically putty food grade. And non toxic laquer. Naturally biologically environmentally freindly.

Highly refined and designed to be safe for human consumption.It is tasteless and highly palatable for human.

WHY ACACIA ?

Acacia wood has proven its stability having cold resistant does not cracked in cold area.

Japan and Europe importing acacia products from the Philippines since 25 years.

Acacia Wood is an environmentally freindly hardwood that grown from private land in the Philippines. One of the special characteristic of acacia wood is an unusual property known as Chatoyancy has aspects having a changeable iridescent luster and color a different lightning condition as its shimmering the wood can change to light tan into dark brown sometimes appear like walnut or teakwood.

THE ACACIA TREE: Once we planted one tree. When they grown old and the seeds dried open . They fall to the earth and they grown up by itself. They multiply more tree than we expected. Therefore Acacia tree is not endangered kind. In this natural growing we have sustainable supply.

PHYSICAL CHARACTERISTICS OF AN ACACIA TREE

Next, the flowers, fruits and seeds -

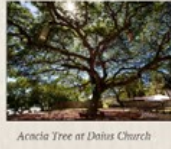

The flowers of the Acacia Tree are considerably in size and are in forms of balls or spike. They are monoecious plant with 4-5 or occasionally more petals and sepal. It has different colors, the white could go through shades of cream and yellow to orange. While a different specie produce purple yellow heads. It mostly flowers in their first year, depending on the specie and often the season. Its fruits are pods, straight and somehow fleshy and could be up to 15-20 cm inches long and 2 cm wide, with a pulpy sweet mesocarp. Seed pods contains 2-11 seeds.

7 USES OF ACACIA TREE

• **Good Source of Fiber:** It has 90% soluble fiber and this fiber, that dissolves in water, is an important part of a person's diet. It helps the digestive system to run smoothly and reduce the risk of having heart disease and diabetes.

• **Helps With Digestive Issues:** Fibers help alleviate constipation and discomfort. Also, its not only the fiber but also the sap that is prebiotic.

Acacia Tree at Datus Church

• **Helps in regulating blood sugar and boost daily fiber in body.**

• **A great role in reducing cholesterol.**

• **No More Sore Throat:** Acacia is a demulcent, a substance that relieves irritation in the mucus membranes. Its one of the ingredients in many cold medicines.

• **Denists Approves:** the acacia gum have antibacterial properties that help control harmful bacteria in the mouth.

• **Sheds some fats:** The benefit of eating a diet rich in fiber it keeps a person full. The acacia gum helps in obesity.

ACACIA TREE

Acacia Tree at a sunset in Safari

Acacia tree or commonly known in our country as Small Philippine Acacia tree or Akasya is a perennial tree native in the south east Asia. It is more commonly seen in tropical Pacific areas. In the Philippines it is a prickly shrub that could be seen more in La Union, Benguet, and Ilocos Sur provinces of northern Luzon. They are said to be fast growers and could be able to live for 20 - 30 years. See next page for more information about Acacia

PHYSICAL APPEARANCE OF AN ACACIA TREE

Acacia's stem and roots

Acacia has an inflorescence arrangement on stems. It possesses a secondary growth, its bark are rough and furrowed, its branches are widespread. Meanwhile, the Acacia Tree has a root system of Taproot because it possesses a dicot plant, its trunk could grow up to 1 meter.

PHYSICAL CHARACTERISTICS OF AN ACACIA TREE

Start With The Leaves -

The leaves of this tree are simple and aren't divided into leaflets. This kind of group that suppresses the leaflets has their petiole become vertically flattened into ptyllodes. Ptyllodes protects them from intense sunlight they function as leaves. This kind of group is mostly distributed in Australia and Pacific Islands. Its leaves are small and has

Leaves that has flattened or wider petiole are called "ptyllodes".

Bark

Acacia is a large upright column tree growing to a height of 20 to 25 meters. Bark is rough and furrowed. Branches are woody and are evenly branched and many underneath. Foliage are 1 to 1.5 and 15 centimeters long or less. Leaflets are 12 to 16 in the upper portion, 4 to 10 in the lower ones, the branching in the lower portion being terminal, with the main veins diagonal and oblong-oval, 1.5 to 4 centimeters long. Flowers are pink, borne in dense, peduncled axillary, corymbose heads. Fruits are pods, straight, somewhat fleshy, indehiscent, 10 to 20 centimeters long, 2 centimeters wide, with a pulpy mesocarpium.

Phytochemistry

• **Preliminary phytochemical screening and antimicrobial activity of *Bananasium saman*** A study of the aqueous yield and fractionation of *Bananasium saman* (Euphorbiaceae) against Gram-positive and Gram-negative strains showed inhibitory activity against all the tested organisms. Phytochemical screening revealed terpenes, flavonoids, saponins, steroids, cardiac glycosides and quinones. The study validates the use of this plant in traditional medicine. (1)

• **Antibacterial** A methanol extract from leaves showed a highly significant antibacterial activity in vitro for *Staphylococcus aureus* and for marine pathogens *Vibrio*. (2)

• **Larvicidal** Of 102 medicinal plant species collected in Thailand, *Bananasium saman* (stem bark) was one of 10 plants that exhibited high toxicity to the fourth instar larvae of *Aedes aegypti* in preliminary screening. (3)

• **Antidiabetic** (1) Several extracts of *Bananasium saman* showed the highest antidiabetic potential in both *in vitro* and *in vivo* studies. (2) Study showed a moderate effect to lower both glucose and triglyceride levels with values higher than acarbose. (3) Phytochemicals isolated: carbohydrates, phenolics, saponin, protein compounds, and terpenes. (4)

• **Anti-Tumor** Study of ethanolic extracts of seeds and bark of Acacia collected from the Laurel Farm in naturally-occurring saponins, terpenes, alkaloids, reducing agents, glycosides, carbohydrates. Results showed diuretic effect activity comparable to furosemide. (5)

• **Anti-diarrhoeal Effect** Study of bark extract in albino rats showed significant dose-dependent antidiarrhoeal activity comparable to standard drugs. (6)

• **Toxicity and Interaction to Metals** In natural concentrations of different metals, significantly reduced acetylcholinesterase activity was observed for Pb and Cd as compared to Cu and Zn. (7)

• **Resistin Activity** Stem-bark extracts studies on *Resistin* (R1) and *Resistin-like 1* (R2) extract of leaves showed: (1) Both had moderate bacterial activity against *P. aeruginosa* (2) R2 antifungal activity against

USES OF AN ACACIA TREE

Small Acacia Tree in field

WOOD: Valued for its shade and is popular used for carving furniture.

SEEDS: can used to make marshallone tea that is both antibacterial and anti-inflammatory.

FLOWERS: used for eating.

BARK: the inner of the chaw bark is used while the chaw bark itself is placed on the hot spring by any insects.

REPRODUCTION

From The Science Creation Wikipedia, the free encyclopedia

All types of Acacia are dioecious or their produced separately. Its without they have cylindrical spikes or globose flowers. The only problem with this tree is that the seeds are dormant, so they have to be sown during before receiving water in order to grow.

ABOUT ACACIA TREE

ABOUT ACACIA TREE

MEMORANDUM

FOR : CENR Officer
 THRU : OIC FMS Specialist
 FROM : Inspection team
 SUBJECT : Inventory & Inspection of acacia trees for the issuance of Clearance
 Date : July 28, 2017

This has reference to the request of Mr. Gualberto B. Lumaug as to the inspection and inventory of matured acacia trees planted within the private land and follows are our findings:

1. That there are 1115 harvestable acacia trees planted within a private land by the Mr. Gualberto B. Lumaug located at San Juan, Alfonso Lista, Ilugao;
2. That the team inspected/inventoried said trees that are matured and well in age and has to be harvested the soonest to save its economic value; and
3. That the team is hereby recommending issuance of the issuance of clearance for harvesting later and interposes no objection as to the interest of the owner to harvest said trees subject to the guidelines and procedures of DENR.

Attached are inventory sheets and pictorials that form part of our report.

For your information and perusal.

CERTIFICATE OF TRANSPORT AGREEMENT

TO WHOM IT MAY CONCERN:

This is to certify that the undersigned have agreed to transport the forest products described below:

Pieces: 2000 pcs. of Acacia (finished products)
 Volume: 212 board feet or .5 cubic meter
 Place of Loading: San Mateo Isabela
 Date of transport: Oct. 12-14, 2017

That the cargo is to be or being transported on the following described conveyances:
 Kind/Make: _____
 Serial No. _____
 Plate No. RSG 826
 Registration No. _____
 Authorized Representative: _____

That the undersigned owner of the conveyance and/or his authorized representatives hereby declares that he is aware of the documents required by the Forestry Laws and Regulations and that the conveyance used is subject to confiscation and forfeiture if the transport is not covered by the required documents.

That the subject forest product herein comes from legitimate sources and are covered by the requisite documents:

CERTIFICATION

TO WHOM IT MAY CONCERN:

This is to certify that Isayas Padua, of legal age and resident of San Mateo Isabela transporting acacia wood with a total volume of 7.4 Cubic meters from Santa Maria, Alfonso, Hugao to San Mateo Isabela loaded on a vehicle (Forward) bearing Plate Number RCG 826 driven by Alex Masang.

Said acacia poles/wood were taken from the private land under Land Title Number TCT-106 with Tree Registration Number AI-02-13-06-1 of Mr. Gualberto Lumaog located at Santa Maria, Alfonso Lista, Hugao.

A certification fee of 50 pesos and oath fee of 36 pesos was paid on Nov 15, 2017 with O.R. No. 7754964 issued at CENRO Alfonso Lista, Hugao and is valid from Nov 15, 2017 to Nov 18, 2017.

VALERIANO BANGGOLLAY

Wood Treatment Non toxic Water Based Wood Termite Chemical

Fungi's Paradise

Wood is a haven for fungi, both wood-decaying and wood-inhabiting. The fungi, bacteria, water and other organisms, along with wood-boring insects, for example termites, can cause serious damage to wood which has been treated.

DAMAGING EFFECTS OF SAPSTAIN FUNGI ON WOOD:

- Reddened appearance, even if it does not weaken the wood.
- Reddened surface, even if it does not weaken the wood.
- Disrupts natural water repellency, it is followed by wood rotting fungi that leads to the wood rot.
- Reduces load and structural capability in other life-threatening process.
- Increases lower population of insects causing more damage.

LEADNITE 25 is a wood preservative formulated to control decay and sapstain fungi by making the wood less hospitable for soil fungi. It is available in liquid, powder, and granular forms. It is also available in ready-to-use spray, brush, and dip formulations.

Directions for Use: This preservative should be applied to all wood surfaces to be treated. It is available in liquid, powder, and granular forms. It is also available in ready-to-use spray, brush, and dip formulations.

Compatibility: LEADNITE 25 is compatible with commonly used fungicides, insecticides, and preservatives for the protection of wood. It is also compatible with other wood preservatives.

THE EXPERT'S CHOICE

WOODTEC 2 SEC is an extremely active and powerful preservative that guarantees the safety of wood by killing termites, other wood-boring insects, surface fungi and other organisms in contact. It offers an elegant and long protection from wood pests, such as termites and wood-boring insects, powder post beetles (bark beetles), wood-boring beetles, drywood termites (wood and wood-boring).

PREMIUM BENEFITS & FEATURES:

- GIVES LONG LASTING PROTECTION UP TO 10 YEARS** - WOODTEC 2 SEC guarantees the protection of wood from wood-boring insects for 10 years.
- A VERY POWERFUL PROTECTANT** - WOODTEC 2 SEC controls all kinds of wood-boring insects on any type of indigenous material. Its active ingredients **CREATE PORES** in the wood grain, which are not filled with preservative.
- HIGH MARGIN OF SAFETY** - WOODTEC 2 SEC bears the **GREEN LABEL OF SAFETY**. It is safe, non-toxic and registered with the Fertilizer and Pesticides Authority.
- IT HAS LOW DODOR AND STAIN**

DIRECTIONS FOR PROPER USE / TAMAANG PANGANGYAGAMI:

WOODTEC 2 SEC is a water-soluble preservative and should be applied in accordance to the period of protection required and chosen application technique.

It may be applied by spraying, dipping, brushing, or by other means. The type of wood to be protected determines the effective treatment for treatment.

Test results have shown that there is a "wicking effect" when wood preservatives are applied in WOODTEC 2 SEC. Coating is now one of the most common applications today. The technique avoids the need to dip the wood with anything other than the standard solution.

TREATMENT PERIOD / TAMAANG PANGANGYAGAMI:

Any fresh cut wood surfaces prior to being treated. Treatment of exposed wood surfaces prior to drying should be made as soon as possible after the wood is cut and should be applied by using 12 hours.

WOOD TYPE	PROTECTION PERIOD	CONCENTRATION	APPLY METHOD
WOOD FOR USE IN CONTACT WITH WATER	10 YEARS	100%	DIP
WOOD FOR USE IN CONTACT WITH WATER	10 YEARS	100%	DIP
WOOD FOR USE IN CONTACT WITH WATER	10 YEARS	100%	DIP

ANTI FUNGI, MOLD, INSECT TREATMENT

HIGH MARGIN OF SAFETY
WOODTEC 2 SEC bears the **GREEN LABEL OF SAFETY**. It is safe, non-toxic and registered with the Fertilizer and Pesticides Authority.

**DROP TEST IS REQUIRED FOR COLOR BOXES.
IF THERE ARE NO COLOUR BOXES, IT WILL BE APPLIED TO INNER BOXES.**

UNDER THE TITLE OF PROCEDURE, YOU CAN SEE THE DROP HEIGHTS (in both inches and centimeters) MATCHING WITH WEIGHT INTERVALS.
AFTERWARDS YOU CAN SEE THAT HOW THE DROP TEST IS PERFORMED. (for which corners, which sides and which edges) THERE WILL BE TOTALLY 10 DROPS FOR EACH CARTON BOX
FINALLY YOU CAN SEE THE CONDITIONS AND ACCEPTANCE CRITERIAS. THEY ARE IN ORDER ACCORDING TO THE DROP TEST PROCESS.

PROCEDURE

Packaged product weight				Drop height	
equal to or greater than		but less than		free fall	
lb	Kg	lb	Kg	in.	cm
0	0	2.1	9.5	39	79.2
2.1	9.5	9.3	18.6	24	61
4.3	18.6	9.3	27.7	18	45.7
6.5	27.7	100	45.3	12	30.5
110	45.3	150	68	8	20.3

CHECKING CONDITIONS AND ACCEPTANCE CRITERIA

- The items inside the sample carton should be inspected with "Good" result;
- Repacked the unit as per the shipping configuration;
- Perform the carton dropping;
- Inspect the packaging to see whether it is damaged;
- Inspect the item inside by visual check, functional check and safety check.

With Drop Test Packing Recommended As Per Agreement

RECOMMENDED MINIMUM REQUIREMENTS FOR BOXES

DEPENDING ON BOX SIZES, MINIMUM REQUIREMENTS ARE SPECIFIED BELOW. PLEASE PAY ATTENTION THAT THESE ARE ONLY MINIMUM REQUIREMENTS FOR BOXES. EVENTHOUGH YOUR BOXES MEET AFORMENTIONED REQUIREMENTS, IT IS STILL YOUR LIABILITY TO MAKE SURE THAT THE PACKAGING (INSIDE CONSTRUCTION CAN BE LIKE POLYFOAM, PLASTIC BAGS BUBBLE BAGS / WRAPS, ... ETC) WILL PASS THE DROP TEST.

IF YOUR COLOUR BOX'S VOLUME IS BELOW 10.000 CM³
Normal Boxes

Chromo Cardboard Quality : G02 (at least G03) 350 g/m² (DO NOT USE ANY LOWER QUALITY AND GRAMMAGE)

Corrugated Board Quality : Single Wall (One liner with one fluting)-E - Flute
1st Liner : 135 g/m² - Testliner
1st Fluting: 120 g/m² - Fluting

Printing : Must be 4 colour Offset Printing (CMYK - Cyan Magenta Yellow Black)

Film Lamination : 32 micron OPP Matte Cellophane (UV COATING AND DISPERSION COATING IS NOT ACCEPTED)

IF YOUR COLOUR BOX'S VOLUME IS ABOVE 10.000 CM³
Resisting Boxes

Chromo Cardboard Quality : G02 (at least G03) 300 g/m² (DO NOT USE ANY LOWER QUALITY AND GRAMMAGE)

Corrugated Board Quality : Double Wall (Two liners with two flutings in the middle)-B+E Flutes (DO NOT USE ANY LOWER QUALITY AND GRAMMAGE)

1st Liner : 125 g/m² - Testliner
1st Fluting: 85 g/m² - Fluting
2nd Liner : 125 g/m² - Fluting
2nd Fluting: 125 g/m² - Testliner

Printing : Must be 4 colour Offset Printing (CMYK - Cyan Magenta Yellow Black)

Film Lamination : 32 micron OPP Matte Cellophane (UV COATING AND DISPERSION COATING IS NOT ACCEPTED)

Max. Master carton dimension

	Height	Length	Width
Max	60	80	40

With Drop Test Packing Recommended As Per Agreement

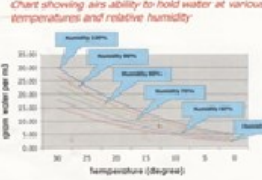

THE DAMAGE

FUNGUS, MOULD AND MILDEW OCCURS WHEN THE RELATIVE HUMIDITY INSIDE A CONTAINER IS TOO HIGH. CONDENSATION CHEMICAL PRODUCTS OCCUR WHEN THE RH IS TOO HIGH AND CAN BE A CATASTROPHE IF THE WATER IN THE AIR CONDENSES ON THE SURFACE OF THE PRODUCTS.

THE EXPLANATION

THE SIMPLE EXPLANATION OF THE PROBLEM IS THIS: WHENEVER GOODS ARE MOVED FROM A HOT CLIMATE TO A COOLER CLIMATE, CONDENSATION WILL OCCUR BECAUSE WARM AIR HOLDS MORE WATER THAN COLD AIR. WHEN THE TEMPERATURE INSIDE THE CONTAINER IS LOWERED THE AIR WILL REACH THE DEW POINT AND THE WATER WILL CONDENSE. SEE THE CHART TO THE LEFT. THE SAME THING HAPPENS IF YOU PUT A LID ON A HOT TEA CUP AND WAIT A FEW MINUTES, THE INSIDE OF THE LID WILL BE WET BECAUSE THE WATER IN THE AIR HAS CONDENSED.

THE SOLUTION

SUPER DRY IS A ONE TIME USE ENVIRONMENTALLY FRIENDLY PRODUCT THAT ACTUALLY REDUCES THE HUMIDITY INSIDE THE CONTAINER. ONCE IT IS ACTIVATED, THE UPPER PART CONSIST OF A DRYING AGENT THAT COLLECTS WATER MOLECULES FROM THE AIR THEREBY REDUCING THE HUMIDITY INSIDE THE CONTAINER. THE LOWER PART IS A RESERVOIR TO COLLECT WATER.

GOODS PROTECTED BY SUPER DRY:

- AGRICULTURE PRODUCTS : SPICES, COFFEE, TEA, BAGGED RICE, TOBACCO AND OTHERS
- WOODEN PRODUCTS : FURNITURE, MOLDING, TIMBER, WOOD Pulp AND PAPER PRODUCTS
- ELECTRONIC GOODS : ELECTRICAL APPLIANCES, CABLES, TOYS, ETC.
- LEATHER GOODS : FOOTWEAR, GARMENTS AND FURNITURE
- METAL PRODUCTS : SHEETS, MACHINERY, AUTO PARTS AND FURNITURE
- TEXTILES : GARMENTS AND FABRICS

ASSORTION DESICCANT (SHANGHAI) CO., LTD
888 WEST JINER ROAD, SONGJIANG DISTRICT, SHANGHAI

The following sample(s) was/were submitted and identified by/on behalf of the client as:

Sample Name : CALCIUM CHLORIDE
 SGG Ref No. : 11708572-2
 Main Substance : CALCIUM CHLORIDE

Sample Receiving Date : Apr 16, 2009
 Testing Period : Apr 16 - 21, 2009

Test Requested : (1) In accordance with the RoHS Directive 2002/95/EC, and its amendment directives.
 (2) In accordance with the EU Directive 2006/25/EC, to determine Dimethyl fumarate(DMF) content in the submitted sample.

Test Method : (1)RoHS reference to IEC 62321:2006
 (1-1) Determination of Cadmium by ICP
 (1-2) Determination of Lead by ICP
 (1-3) Determination of Mercury by GPC
 (1-4) Determination of Hexavalent Chromium by Colorimetric Method
 (1-5) Determination of HgPb and PbCd by GCMS
 (2) Solvent extraction
 Analysis was performed by Gas Chromatograph / Mass Spectrometer (GCMS)

Test Results : Please refer to next pages.

Conclusion : (1) Based on the performed tests on submitted samples, the results comply with the RoHS Directive 2002/95/EC and its subsequent amendments.
 (2) When tested as specified, Dimethyl fumarate(DMF) content of the submitted sample complies with the requirements of EU Directive 2006/25/EC.
