

# Your flu shot is covered

## Your no-cost flu shot helps protect you and those you love.

Getting your flu shot early is one of the best ways to build immunity this season. The vaccine is safe and effective, and helps protect you and those around you. You can get your flu shot and COVID-19 booster at the same time.

## Who needs a shot?

The Centers for Disease Control and Prevention (CDC) recommends everyone six months and older should get a flu vaccine every season with rare exceptions.<sup>1</sup>

Vaccination is especially important for children, older adults and anyone with a health condition or weakened immune system.

## 3 ways to make an appointment:

1. Schedule your vaccine appointment at a nearby CVS Pharmacy®:  
[CVS.co/ScheduleFluShot](https://www.cvs.com/ScheduleFluShot)  
Aetna is a CVS Health® Company, and is proud to recommend CVS Pharmacy locations for flu shots. Once you get your flu shot or COVID-19 booster at CVS®, you'll receive \$5 off your next \$20 purchase.<sup>2</sup>
2. Walk in or schedule a flu shot at a retail clinic like [MinuteClinic®](#).
3. Log in to your member website at [Aetna.com](https://www.aetna.com) to find a local network pharmacy or doctor.
