DEMATTING WAIVER & RELEASE FORM

Dog's with severely matted coats require special care. At Good Dog Collective, we avoid causing undue stress or pain to pets during dematting. In many cases, mats may need to be shaved out. Severe matting can lead to skin irritation, hidden wounds, or infection due to trapped moisture, urine, or debris. Removing mats may result in nicks, cuts, redness, itchiness, or failure of hair to regrow. Some pets may show temporary behavioral changes after the process.
