

Precision Parts

Category	Details
Product Scope	Precision mold inserts, ejector pins, sliders, cavities, core pins, lifters, and custom tooling components
Materials	Stainless steel · Tool steel (H13, SKD61, S136) · Aluminum · Copper alloys · Others
Machining Capabilities	CNC turning · CNC milling · EDM · Wire-cutting · Surface grinding · Custom polishing
Applications	Plastic injection molds · Die casting tools · Medical · Automotive · Industrial
Quality Assurance	Swiss-supervised QC · Tolerance checks · Hardness testing · Dimensional inspection
Delivery & Support	Custom orders and small batches accepted · Fast lead time with global shipping
Key Message	Precision spare parts, crafted in China and trusted in Europe – for your tooling and production needs
