THE GLOBAL EMBASSY OF CULTURE (TGEOC)

AT THE US PRESIDENTIAL SERVICE CENTER (USPSC)

Dear, Distinguished Leaders, Diplomats, and Partners,

Special Welcome Message

We welcome you to a special time to collaborate with great minds and people of different cultures across the world! An avenue for you to develop and deploy your potential, as you explore ideas, initiatives, events and programs in our community, and with the opportunities we share together.

As the Global Secretary of this wonderful organization, I welcome you specially to this amazing community, where we work together to promote unity globally, through the pillars of “Friendship” and “Sharing”.

In a world where crises occur from time to time, and challenges in life at some point or another are inevitable, it is difficult to maintain stability and recover from the weight of what life throws at us without unity and strong cultural frameworks embedded in the fabric of our local, national and global societies. It is time for us to work together to contribute to a world where peace thrives, where we create and maximize opportunities, and where education becomes a precious gift everyone has access to, as we tap into the unique value every human possesses for the good of the world at large.

Feel free to make contributions, ask questions, support small or big projects in cash or kind, show up and participate in events, among many others. Let us celebrate the beauty of our values and differences together!
