302392

Dims: 14' L x 6' w

Weight: 350 lbs.

Weight capacity: 1,950 lbs.

PRO MAXX WB

302743

Dims: 14' L x 6'8" w

Weight: 400 lbs.

Weight capacity: 2,500 lbs.

Pro Maxx Ports come designed with wider and longer bodies to accommodate bigger PWCs.

- Patented design. Easy drive-on and drive-off functionality. Gradual entrance allows for a seamless and flat ride, eliminating jarring motions.
- Deeper midsection design effortlessly accommodates PWCs with deeper hulls.
- Strategically positioned, super soft bumper-like wheels to allow a soft, smooth, worry free loading experience. Wheel pockets designed for perfect alignment and optimal hull protection every time.
- Pro line of connectors and attachments for seamless integration with your waterfront setup.
- Molded-in bow stop, paired with a robust stainless steel clip and chain, guarantees secure positioning.
- Crafted with an incredibly durable rotomolded shell, fully filled with marine-grade EPS foam, offering maintenance-free high-density polyethylene construction.
