

CONNECT DOCK SECTIONS QUICKLY AND EASILY WITH THE

H-BEAM CONNECTION SYSTEM

Solid stainless steel anchor insert with anti-galling coating.

H-BEAM CONNECTION KITS

The patented Wave Armor H-Beams feature molded-in inserts that align with the slots on the top deck of each Wave Armor Dock Section. With molded-in handles, H-Beams simply slide into the molded-in H-Beam channels on any side of dock sections.

- Hidden, secure connection with uniform rigidity and flexibility.
- **Made of high impact polyethylene.** RotoMolded construction High density polyethylene
