

# CONTEST SEASON 2021

---

As the premier Dance Team Competition providers in Texas, we are committed to implementing standardized COVID-19 safety policies and procedures, in conjunction with the other leading Event Producers in our industry. It is our hope that this coordinated effort will help you to better navigate these changes and give you and your administration a greater sense of confidence as contest season approaches.

While most of these policies will continue to be finalized in the coming months, we do want to inform you that we anticipate that state and local social distancing requirements as well as proper sanitization protocols may require industry-wide restrictions.

## CURTAIN AND PROP UPDATE:

*The following adjustments have been made to allow space for safe spectator seating and limit any congestion in the hallways.*

## CURTAINS:

The full back curtain will not be provided (or allowed). However, 3 wings on each side will be provided.

## PROPS:

All props must be handled/managed only by the performing dancers when entering and exiting the floor.

*\*\* Studio faculty will be permitted to assist with props for dancers age 6 and under. \*\**

We are committed to doing everything we can to provide the safest possible competitive environment and we greatly appreciate your support as these challenging decisions are finalized.
