ABOUT US

KCON Pty Ltd is a Sydney-based, carpentry-led building company specialising in home renovations, extensions, and custom new home builds.

With years of hands-on carpentry and residential construction experience, we focus on delivering high-quality workmanship, clear communication, and reliable project timelines. We transform outdated houses into modern, functional spaces and build new homes tailored to the unique lifestyle of each client.

From minor upgrades to full-scale renovations, every project is completed with absolute precision and care

15+

YEARS OF EXPERIENCE

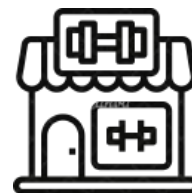

As a fully licensed builder, our company delivers exceptional construction solutions backed by a premier team of experienced carpenters and highly skilled trade professionals. Specialising in both residential and commercial projects, we seamlessly combine structural precision, an uncompromising attention to detail, and the flexibility required to bring complex visions to life.

Our foundation is built on elite craftsmanship and robust project management. Led by fully licensed carpenters and an experienced management team, we ensure every project is executed with efficiency, clear communication, and the highest standards of industry compliance. From initial concept to final handover, we build with durability and distinction.

OVERVIEW

We believe a great build relies just as much on a seamless process as it does on elite craftsmanship. From the initial blueprint to the final handover, our structured, step-by-step approach ensures your project stays on time and completely transparent. Here is how we bring your vision to life with total precision.

1. PLANNING

We collaborate with the design team to finalise blueprints, secure necessary permits, and map out a precise project roadmap

2. COORDINATION

Our management team organises materials, schedules our trusted trade specialists, and aligns all moving parts before a single hammer is lifted

3. SITE PREPARATION

We secure the work area, handle any necessary demolition, and prepare the structural foundations to ensure a safe and efficient build

6. HANDOVER

We take you through a final walkthrough of your completed, professionally cleaned space and officially hand over the keys to your new home

5. QUALITY CHECK

We conduct rigorous, detail-by-detail inspections throughout the build to ensure our strict standards of craftsmanship and compliance are met

4. INSTALLATION

Our licensed carpenters and skilled tradesmen bring the vision to life, executing everything from structural framing to premium lock-up finishes

OUR PERFORMANCE

Our track record speaks for itself. The steady expansion of our business comes down to two simple things: keeping our financial foundation solid and making sure our clients love the final result. Because we handle our business as tightly as we manage our build sites, you get a highly stable, professional partner who knows exactly how to execute your next project without the stress.

Story About Clients

We believe the best way to show you what we do is to share how we do it. For our team, the client experience is everything; we value the relationship we build with you much more than just sticking strictly to a rigid plan when real-life changes happen on site. These case studies take you behind the scenes of how we collaborate to deliver flawless craftsmanship and absolute peace of mind

THANK YOU

We take a lot of pride in what we do at KCON. For us, it's not just about managing a site—it's about getting the details right, delivering top-tier carpentry, and being a builder you can actually rely on.

We look forward to working together on your next build.
