The Monthly Newsletter of The Central Florida Metal Detecting Club

AUGUST 2018

Carolyn Harwick: From The President's Desk

It is August and the temperatures average around 95 degrees so for this reason, we will not be holding a club hunt for the month of August. If you are out metal detecting, please take plenty of breaks and drink a lot of water.

At the meeting this month, we have a few exciting things to go over for the club and upcoming events. The board has been working really hard on some stuff for the members. Also, at the meeting we will be announcing the next certification class. If you haven't already, you may want to sign up for it.

If you are interested in doing a Tech talk at one of the upcoming meetings, then please reach out and let me know. So many of our members have a lot of valuable information that the other members would love to hear about.

If anyone has any metal bottle caps that they have found, I have been asked to collect these over the next couple months to give to a project that needs as many as we can provide. Please bring them to the August and September meeting.

Thank you to all of you who are looking for lost items. I am surprised that even with the hot temperatures, that so many recoveries are still being made. Keep up the good work!

See you at the next meeting.
