President's Corner

Alan James

As I sit here at my computer, I can't help but think of the fact that tomorrow is July 4th, 2011.

I know that this holiday often means hamburgers, hotdogs, or steak on the grill as it should and along with plenty of good food, family and friends, travel to the beach, volleyball, and fireworks I hope each of you enjoy the time you spend celebrating in the activities of your choice. But I ask all of you to take just a moment and remember what this holiday is really about ---- Our FREEDOM is too precious to ever be taken for granted and the incredible sacrifice so many have made for our country must never be forgotten.

As members of the Central Florida Metal Detecting Club, I believe all of you share similar thoughts and for that I am grateful.

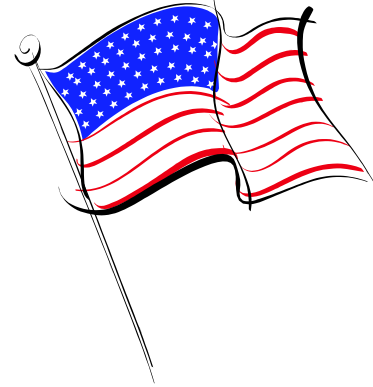

This month will we hold the 2nd Annual Ray Leist Beach Hunt. It will be held in Daytona on July 16th. This is a night hunt and everyone is encouraged to attend. No flashlights are permitted during the hunt and everyone has the same opportunity to stumble around and find some of the buried treasure in the sand. Last year was a lot of fun and I expect this year will be even better. Complete details of this hunt will be given at the next regular club meeting.

We have a change in last month's vote for find of the month. One of the items which was voted as a 1st place winner has been disqualified because it was a late entry. Please remember, items placed on the finds table after the start of the meeting cannot be considered in the vote for find of the month. This was clearly voted on by the membership many months ago and has been working well to reduce unnecessary distraction during the meetings and I thank all of you for trying to make it to the finds tables early enough to display your items.

Active membership as long as any of us can remember, photographer, always smiling, interested in hunting and fishing, and a darn good detectorist. Often places within the top three finds-of-the-month. Hmm???. What else can I say? How about "Congratulations and Thank you" to Ralph Flippo, the Spotlight Member of the Month for July 2011. Be sure to shake his hand at the next meeting.

As always, my thanks to all of the members who help make the Central Florida Metal Detecting Club such a success.

Emerald Ring Found

A magnificent \$500,000 emerald and gold ring was uncovered today from the most valuable shipwreck ever recovered; the Nuestra Senora de Atocha.

Key West, FL June 23, 2011 – 35 miles West of Key West, Florida on the shipwreck site of the Nuestra Senora de Atocha a large emerald and gold ring along with two silver spoons and two more silver objects were uncovered by Mel Fisher's Treasures salvage vessel JB Magruder and her crew: Captain Andy Matroci and crewmembers Tim Meade, Bill Burt, Bill Reighard.

The gold ring is 5 and 4/5 cm tall and 4.7 cm wide. The emerald itself is 2.5 cm long and 2.3 cm wide. The gold portion of the ring has an ornate design carved into its exterior. Inside the ring, just beneath the emerald, initials that appear to read VRC can be seen carved into the gold.

This is the largest emerald box ring to be recovered from the Atocha. Based on the size and quality of the emerald and its unique engravings, initial estimates place this one-of-a-kind artifact over \$500,000. [Fisher Story Read More](#) [Other Recent Fisher Finds](#)
