How can young people influence political issues apart from voting?

With three inspiring leaders we'll discuss:

- ✓ what works and what doesn't work for influencing a system
- ✓ how young voices are included or excluded from climate policy
- ✓ current progress in the clean energy transition
- ✓ the pros and cons of a "duty of care"
- ✓ how communities ensure they are accessible to diverse groups.

Climate, like politics more broadly, can be daunting - but it isn't all doom and gloom. This event is for anyone interested in understanding how change is happening - and how empowering young people helps it happen faster 🌱
