

healthXbridge

Insight. Integrity. Impact

About us

HealthXbridge partners with pharmaceutical and healthcare organisations to build capability, strengthen leadership, and deliver real impact across complex health systems

**Developing
confident,
system-aware
teams to succeed
in modern
healthcare**

We are

A team deliberately built to reflect the realities of **modern patient care**.

Bringing together Integrated Care Board leaders, training and development specialists, pharmaceutical physicians, and highly influential faculty.

Challenges we solve

- Healthcare system change has **outpaced** internal knowledge
- Traditional engagement models are **no longer fit for purpose**
- Training content & strategy have become **outdated**
- The required **capabilities** to succeed have **changed**
- **High activity, limited traction** with access and uptake of medicine
- Teams are **unclear of their roles** leading to duplication of work, gaps, and tension

What we do

Our **custom-built** high-impact training programmes tackle real-world system challenges, ensuring relevance, credibility, and practical impact from day one.

Delivery options

Custom-built programmes
3-6 months

Face-to-face training
1-2 days

Virtual workshop
60-90 mins

Group session
90 mins

**Turning
system insight
into
patient impact
&
commercial
success**

What makes us different

Led by real system leaders

Every programme is delivered by experienced healthcare and life sciences leaders - not career trainers

Capabilities focused training

Designed to embed lasting capability, beyond traditional skills training - not just "upskilling"

Unique insights

Highly interactive purpose built learning grounded in real system insights - never generic

Co-created for lasting impact

Designed collaboratively with your leaders to build capability that lasts beyond the classroom

Whole-system approach

Grounded in whole-system dynamics - never theory or frameworks in isolation

Credible & compliant by design

Aligned with ABPI, regulatory standards, and governance expectations

Our training programmes

Internal Team Development

Capability that stands up to scrutiny

Building confident, compliant teams across medical affairs, commercial, marketing and market access

Healthcare System & Reform Readiness

Clarity in a complex system

System-led capability development supporting organisations to practically ready their teams for system reform, integrated care models, and new commissioning channels

Regional & National Clinical Leadership

Leadership and influencing change

Develop the precise capabilities required to influence care delivery, improve patient outcomes, and lead effectively

Service and Pathway Transformation

Meaningful change in patient care

Equips teams with the tools to lead service redesign and pathway transformation, focusing on patient outcomes and system sustainability

Digital Health & AI

Innovation guided by integrity

Our programmes enable informed engagement with digital health and AI, supporting responsible innovation through ethical awareness, governance, and trust

Speaker Excellence & Scientific Communication

Where science meets influence

We strengthen presentation skills of internal leaders and external experts, enabling high-impact, compliant scientific communication across meetings, congresses, and advisory settings

Multi Disciplinary Team Excellence

Driving better patient outcomes

Strengthening existing MDTs into high performing team leading across professional boundaries, managing complexity, and creating cultures of collaboration and psychological safety

What do our clients say?

"It has been a pleasure to work with Kristine and HealthXbridge to develop a Clinical Nutrition Team Development Course for hospital teams across the UK.

Kristine has been very responsive and helpful at all times and with her expert trainers delivered an excellent Team development day with very good feedback from all involved.

The day was instructive, challenging and very enjoyable."

Nick Thompson, President of the British Association for Parenteral & Enteral Nutrition

90% of delegates rated our training 'Excellent'

"The training delivered by HealthXbridge surpassed our teams expectation which was not an easy thing to do!"

The Intestinal failure Nutrition Support Team, NHS Royal Devon Hospital

What do our clients say?

80% of clinicians strongly agreed our training would ultimately improve patient care

***“Thought provoking!
Really made me think.
Brilliant and enthusiastic speakers.
Thank you,
HealthXbridge!”***

Delegate feedback

A huge thank you to HealthXbridge for their insights and collaboration in designing the team building sessions for our Nutrition Team Development course.

Sessions were relevant, interactive, and thought provoking.

It's clear that delegates gained a lot from the day”

Jane Fletcher PhD, Consultant Nurse and Honorary Professor

We know how to design high impact training programmes due to our accomplishments

Delivering Global leadership programmes

Empowering tens of thousands of clinicians

Founding Clinical Faculty networks

Delivering system change Nationally

Transforming patient care through cross-system partnership

Reducing National hospital waiting times

Unblocking complex system bottle-necks

Enabling collaboration across cities, services & organisations

Setting up Integrated Care Boards

Authoring recommendations towards improving healthcare

Mapping healthcare services

At the heart of every project and team member

Excellence

Partnership

Inclusivity

Credibility
