Why Katrina Suroveca?

There is magic with her agile hands interspersed with the emotion that you feel in listening to her performances. She sends a spell, and you cannot stop to listen to her. There is no doubt that she possesses dazzling technique, but the romantic expression that comes out from her Chopin interpretation isextraordinary! She is simply superb, as she tossed off spectacular feats with light-touched brilliance. You want to listen!

Why Murad Abasov?

The Azerbaijani pianist has an imposing technique at his disposal and, when he puts his mind to it, the ability to produce moments of insight and refined sensibility. He is in his mid-20s now, at a time in his life when most pianists are turning early promise into real achievement. Murad will be on the International scene and become a Major! you cannot miss him here!

Why Martina Consonni?

Dazzling artistry, jaw-dropping technique and nerves of steel are the words that come to mind. She has won over 50 international competitions and will compete at the prestigious Frederic Chopin Warsaw Competition. She is fearless and not only has superb technique. I admire the pearly evenness of her fingering; she has these flashes of brilliance in these intimate solo pieces that will make you understand why she is a winner and is part of the next generation of great virtuosos!
