NSDA Board Members

RE: Letter of Recommendation/David Lock

Dear NSDA Board Members:

I recommend David Lock for accreditation as a NSDA Principal Evaluator for Cadaver Land/Water.

David went through the instructor courses for both Narcotics and Human Remains Detection held at the Canine Center El Paso. These Customs and Border Protection Courses have been evaluated by outside entities and were found to be the most difficult courses within Government service. David Lock completed both of these courses at the top of his class.

David has assisted me in certifying multiple teams under Border Patrol Standards. He has demonstrated through field success in his ability to apply his training to field situations. He has further demonstrated his abilities by receiving certification as a cadaver handler for land and water for the Border Patrol and NSDA.

I respectfully request your favorable consideration in this matter.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Robert J. Noziska".
