Here are some tips for "what to pack for young children in childcare" by Janice Fletcher, EdD; Beth Price; Lauren Branen, PhD, RD, LD; and Samantha Ramsay, PhD, RD, LD:

- To prevent choking, chop food into cubes that are no bigger than ½ inch diameter for children OVER three and ¼ inch for children UNDER three
- Fresh Fruits and Fresh Vegetables are in season encourage your child to try them.
- Select whole grain breads and crackers
- Select foods without or very low in sugar
- Using an ice pack is a must to maintain food at a good temperature

Some news to note:

- **PLEASE CALL AHEAD and LET YOUR CHILD'S TEACHER KNOW** - When your child is going to be out or you are going on vacation.

- We will be playing in water **A LOT** this summer:

Please bring sunscreen, swimsuit, towel, change of clothes and tennis shoes each day.

PLEASE label all items there are times your child and another child has the same item. You may leave them here all week and take them home on the weekends.
