

Lesson #8 (new)
 week #4 - Properties and features of scatter plots

Example 1:

CLASS:	English	Math	History	Computer	Art	Bio	Phys.	Chem	French
(A) Period:	1	6	2	4	4	1	3	1	3
Average (4) Score	93	87	70	62	86	73	73	80	96

Scatter Plot

Oct 16-2:12 PM

Scatter Plots - the relationship between 2 variables (bivariate) can be measured using a formula which gives a value called correlation coefficient (r)

Oct 16-2:28 PM

Oct 16-2:44 PM

r

Oct 16-2:48 PM

Oct 16-2:52 PM
