

Introducing the revolutionary

KNOX ELOCK SYSTEM™

knoxbox.com/eLock-system

WORRY-FREE RAPID ACCESS WITH COMPLETE VISIBILITY

A major leap forward in technology and innovation for rapid access, the Knox eLock System is the first complete electronic rapid access solution for emergency responders.

The Knox eLock System is designed for maximum security, access, and complete accountability while delivering the ruggedness and quality you have come to expect from the Knox Company.

KEY FEATURES OF THE KNOX ELOCK SYSTEM

eKey Inoperable if Lost or Stolen

- Programmable feature renders it nonfunctional
- No need to rekey boxes (\$100,000+ savings)

Complete System Audit Trail

- System devices record and automatically sync usage data
- If accountability issue arises, eliminates 30+ hours of investigation time and up to \$1,000 in expenses eliminated

Knox eKey Stores up to 100 Lock Codes

- Up to 100 jurisdictions can share and open same lock
- No additional cost for shared access (saving up to \$300+ per box when enabling a submastered key system)

Noncontact Core Design

- Maintenance free
- Needs no batteries or electrical power
- Avoid forced entry caused by an improperly maintained lock core (saving up to \$10,000 on replacing broken doors)

Highly Secure

- AES encrypted
- eLock cores cannot be hacked or detected via RF or Bluetooth technology

System Flexibility

- eLock core can be retrofitted into the latest Knox product models
- KeySecure 6 can hold both an eKey and mechanical master key
- Dual-key system enables Departments to transition easily into the new electronic system

COMPONENTS OF KNOX ELOCK SYSTEM

KnoxConnect™

Management System

Central hub to sync and manage users, devices, and data

KeySecure® 6

Master key retention device

Knox eKey™

Electronic master key

Knox eLock Core

Knox eLock Core™

Electronic lock core

KnoxDock™

Portable eKey programmer and charger

HOW DOES THE KNOX ELOCK SYSTEM WORK?

KNOXCONNECT™ MANAGEMENT SYSTEM

KnoxDock™

Ideal for inspectors and administrative use, the KnoxDock charges and programs the eKey and syncs data to KnoxConnect from a PC computer.

USB

WIFI OR
ETHERNET

KnoxConnect™

Cloud-based administrative software, KnoxConnect is the central hub to run reports and sync, configure and manage electronic devices, users and data.

KeySecure® 6

The master key retention device can secure both the eKey and mechanical key, enabling Departments to transition easily to the new electronic system. Recorded events of devices are automatically synced to KnoxConnect when KeySecure communicates with the cloud via WiFi or Ethernet.

Knox eKey™

The eKey brings power to the eLock Core, and collects and stores information on key usage and box openings. As a security measure, the eKey won't function when pre-set timer expires.

Knox eLock Core™

The patented noncontact design protects the core from dust and dirt and can be retrofitted into most existing Knox mechanical products.

Knox Products

Knox electronic products require neither batteries nor electrical power to operate.

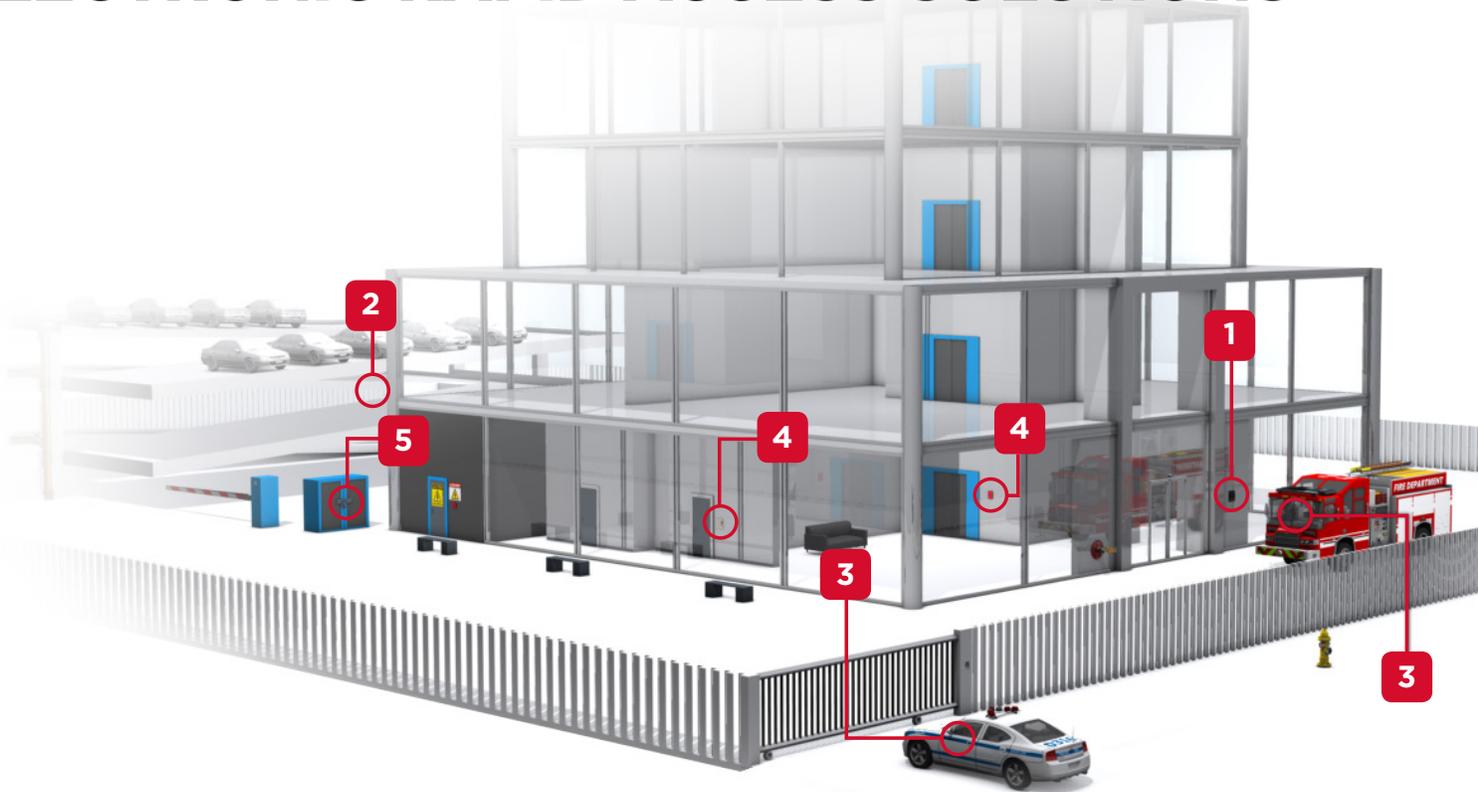

KNOX ELOCK SYSTEM PRODUCT SPECIFICATIONS*

	Knox eKey KLS-8700K	Knox eLock Core** KLS-8800L	KnoxDock KLS-8600D	KeySecure® 6 KS-6K2
Construction	Stainless steel	Stainless steel	ABS-PC alloy (plastic)	Die-cast zinc
Dimensions	3-1/2"H x 1-19/64"W x 59/64"D	7/8"D x 1-47/64"L	4-1/2"H x 2.0"W x 1-1/4"D	6.0"H x 4-1/4"W x 3-1/2"D
Weight	0.25 lbs	0.065 lbs	0.2 lbs	7.8 lbs
Alert LEDs	Yes (2)	–	–	Yes (2)
Power	Rechargeable lithium ion battery	Power provided by the Knox eKey	Host PC provided	Vehicle power (12V)
User PIN Codes	–	–	–	Up to 5,000
Audit Trail Events	Up to 2,500 events	Up to 140 events	–	Up to 16,000 events
Operating Temperature	-20° to +60° C	-40° to +60° C	+10° to +38° C	-20° to +60° C
Storage Temperature	-20° to +80° C	-40° to +80° C	-40° to +80° C	-40° to +80° C

**Knox recommends annual inspection on all lock boxes to ensure integrity of key/lock and contents inside.

ELECTRONIC RAPID ACCESS SOLUTIONS

1 BUILDING ACCESS

Electronic KnoxBox® 3200 / Electronic KnoxVault® 4400

The high-security KnoxBox/
KnoxVault holds keys and access
cards critical to providing rapid
access in an emergency.

2 Electronic Knox Residential Box™

Ideal for multi-residential properties
with community pools and riser
rooms. Store up to 2 keys for
instant emergency access.

3 KEY CONTROL

Knox KeySecure® 6

Knox Master Keys are secured in
a key retention device mounted
in the vehicle and provide audit
trail and security.

Knox eKey™

Electronic Master Key used
to open Knox electronic products.
Powers the Knox eLock Core.

KnoxDock™

Portable eKey programmer and charging
device for office environment.

4 INTERIOR ACCESS

Electronic Knox Document Cabinet™

Houses vital emergency documents
including Haz-Mat and emergency
response plans along with interior
keys and access cards.

Electronic Knox Elevator Box™

Designed for the elevator bank,
elevator override and drop keys are
stored to save first responders time
locating the right elevator drop key
to open landing doors during a
rescue mission.

5 PERIMETER ACCESS

Electronic Knox Padlock™

Manual vehicle and pedestrian
gate entrances can be
accessed using the Knox
Master Key.
