

USEPPA ISLAND FIRE RESCUE KNOX BOX PROGRAM

The Knox Box Rapid Entry System was specifically developed for the fire department. With one master key, the fire department can gain access to your residential property. This ensures the fire department rapid entry in the case of an emergency when you're not home or unable to open the door yourself, which saves lives and property.

In the past if there were an emergency in a locked residence, the fire department would have to force entry which is time consuming and costly by way of damage to doors, windows, and shutters.

Many Island residents are already participating in the program and it has been a huge success. Useppa Island Fire Rescue encourages all residence to participate in the program.

You can purchase and have your residential Knox Box installed through Useppa Island Fire Rescue for a one time cost of \$280.00. For more information call 239-850-8181.
