## Section 2. Comparative Section

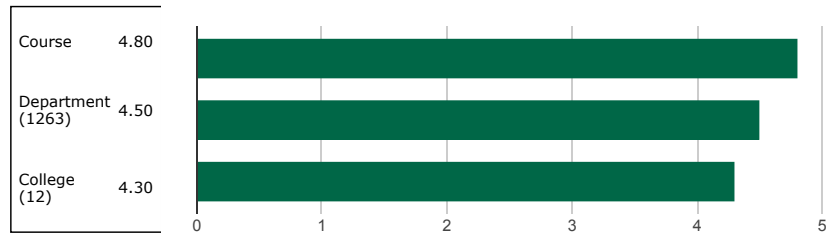

The charts below compare how the students in your course rated you as compared to all of the instructors in the department, and all of the instructors in the college.

Select your rating of the following statements as pertaining to **Kristopher Oliveira**

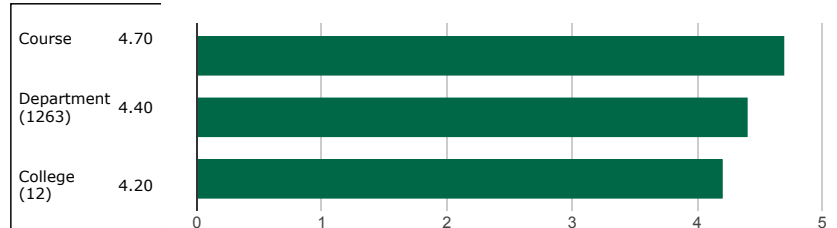

### Overall

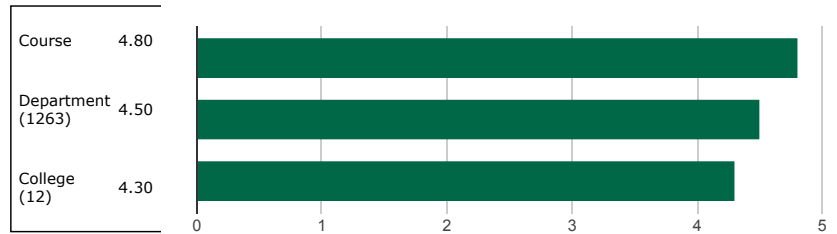

### 1. Description of Course Objectives & Assignments

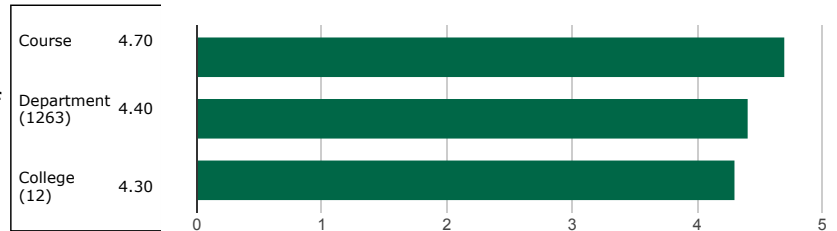

### 2. Communication of Ideas and Information

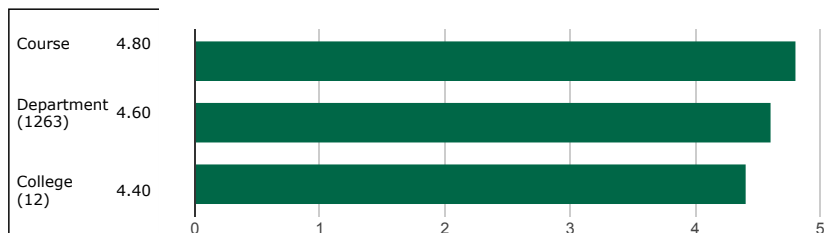

### 3. Expression of Expectations for Performance

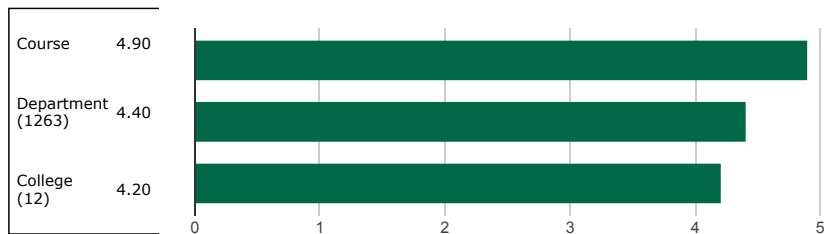

### 4. Availability to Assist Students In or Out of Class

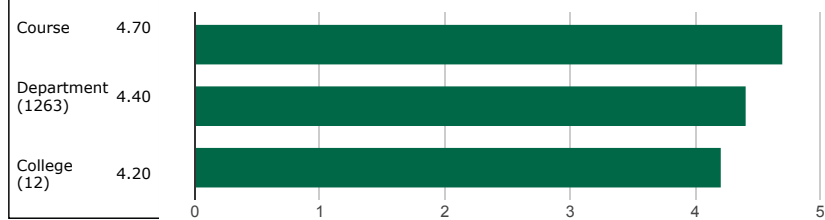

5. Respect and Concern for the Students

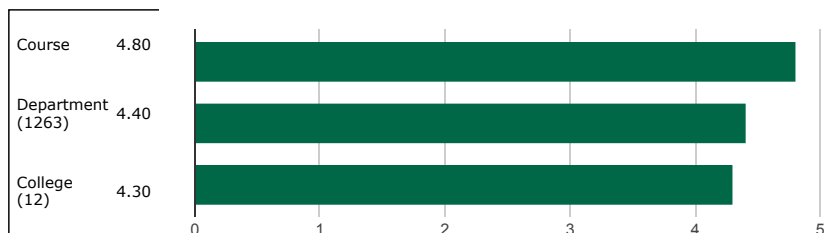

6. Stimulation of Interest in the Course

7. Facilitation of Learning

8. Overall Rating of the Instructor

## Section 3. Comments

The following are responses to two open-ended questions from your students pertaining to you, and the course.

Please provide any additional comments with respect to **Kristopher Oliveira**

Comments
Amazing professor, I would highly recommend him to my peers.
Great professor!
He carried such a passion with what he spoke about that it helped the overall learning experience of the course. It felt that he actually cared for what he was trying to teach, and it felt as if he really cared if the students understood the lesson. He gave students more than enough time to express their voices and concerns, which was refreshing hearing from peer's perspectives.
He is a great teacher/professor and really cares for his students.
He's a wonderful professor. Always kept the class engaged in conversation and allowed everyone to voice their opinion and reminded the class that we are all entitled to our own opinion and that there's no right or wrong.
His passion for sociology made it a more interesting course. He was also highly encouraging which inspired me to try harder on assignments.
I really enjoyed my professor this year and would recommend him to anyone!
I wasn't very excited about taking this class at first but as soon as i sat in the first class with Mr. O i fell in love with our discussions and i'm going to miss them. This is definitely one of the best teachers i've has in a very long time.
I'm a first year student and I am extremely grateful for having encountered a professor like Mr.Oliveira. People often times say when you have an unstructured class that seems confusing or never on a specified path and you must learn on your own, making that a "real" college class and it's sad that that is what people are to expect. I feel as though Mr. Oliveira's class is what a true college class should be like. He is extremely engaging and his assignments are always well explained as well as well graded and he provides really good feedback and makes sure you understand the content of his class as well as understanding the feedback you get on assignments. He is very open and inclusive and makes everyone feel a part of the class and doesnt make you feel pressured to participate but rather you want to. He makes the environment feel safe and a place to be open without judgement and allows room to leave the classroom a little less ignorant than you might've unintentionally been.
Incredibly insightful, knowledgeable, open minded, empathetic, and energetic in class. Motivates students to use sociology to better understand others and their situations to be more empathetic. Always on topic in class, always is prompt with grading and very clear of expectations via rubrics.
Kristopher Oliveira was overall, a great professor. Even though the course was roughly 2 and a half hours long, he managed to keep it interesting. He gave us all the materials to succeed in the course and he was willing to help students if they did not understand an assignment or were missing class. We also did activities during the course and I thought that was really helpful because it kept me intrigued in the course and it helped me understand the overall concept of the topic.
made class very interesting and enjoyable, very knowledgeable on the subject of the class.
Mr. O was such a good instructor. He made the class fun and made me want to pay attention.
Mr. Oliveira is a professor who not only makes the course interesting, but he is one that provides opportunities for students to express their opinions, thoughts, and ideas openly. His instructions are clear and concise. He is always communicating with his students, and he responds to his students' questions and concerns quickly.
Mr. Oliveira is one of the most engaging professors I have ever had. He makes all learning into class discussions and makes everyone's opinion, idea, or question be heard. I enjoyed this class with him so much that I will be taking his fall class as well.
Mr. Oliveira was a great professor and I couldn't have asked for a better teacher. He made everyone feel comfortable enough to share their own feelings and thoughts. He created a safe environment for us to enjoy the class but also learn from it. I was always looking forward to this class and how Mr. O taught each chapter, not just reading from a powerpoint but also going into depth into each topic so we can all understand. I genuinely enjoyed this class more than anything, and I might even consider changing my major to sociology.
Mr. Oliveira was an amazing instructor. Everyday I looked forward to going to Sociology because he made it fun and easy to get a handle on the knowledge we were learning. I learned so much.
Mr. Oliveira was genuinely interested in teaching sociology and he did an excellent job teaching the material in his own way.
Mr. Oliveria, always made time for his students when they had an issue.
Nice professor. Very easy to underStand and clear what he is looking for.
professor Oliveira is excellent. He has the ability to create engaging lectures and is very caring for his students.
Really nice, wish he called on me more
The instructor himself is great. He made sure that discussions were taking place in class and they were very insightful.

This instructor will do great things. He really cares about what he does and really cares about what he believes in.

Very funny and intelligent

Was very respectful and engaged. Reached out to students often and was easily assessable for help.

Comments
An interesting class to take in you enjoy discussion and social interactions.
Enjoyed the course.
I definitely wish i took the full class with Mr. O
I enjoyed it. The compressed course was slightly stressful though.
I enjoyed the course, I had taken AICE sociology in high school so I thought this course would be super easy, but the course offered new materials and topics which I thought was helpful to my understanding of sociology.
I found this class really interesting and I thought it was a good class to start my first semester with.
I found this course very interesting and feel as if it has helped widen my horizons as far as different cultures and why we act the way we do in social situations.
Interesting class and very in depth for the short amount of time in the summer.
Interesting material with thought-provoking discussions
It is a very interesting class but summer is so fast paced it was hard to enjoy it
Loved this course, it has actually made me consider taking up a minor in sociology.
Not only was my professor excellent but so was the class. I didn't realize how much I would genuinely enjoy all the discussions and topics from this class. Every class I was looking forward to what we would learn and how my peers would interpret and discuss these topics. This class didn't feel like every other class where we just went to copy down notes and memorize it for a test, it felt more like a lesson that I will carry on with me throughout my life.
Sociology is an interesting and attention-grabbing course that I recommend every medical student take. Sociology's main focus is human behavior and interaction and why people behave, interact, or think the way that they do, but sociology sometimes goes way beyond that. Sociology pushes people to be less egotistical and more open-minded to the different ways people live their lives.
Sociology was a very good class to take.
Textbook kind of sucks
The class itself is okay. The subject was interesting.
The quizzes, should be after a class discussion on a chapter for those students who do not learn visually need to hear it before they take any test.
Very interesting course to analyze why certain social structures exist.
