An amazing teacher that was always there if needed!
Definitely a good first experience with a college professor!
Excellent teacher!
Great Professor.
He provides great video lectures about the subjects each weeks, gives good information and always seem to have time for his students each week.
He was amazing in explaining the course material. He was available constantly if I needed help in understanding concepts but also helpful in tech issues. I wish I can take another class from him, because it was very enjoyable. His activities were fun and interactive. The lectures gave a lot of examples that I was able to understand clearly.
He was awesome!
His lectures are very well spoken and helped me throughout the course very much. Overall, he helped with my writing skills and was a great professor.
I know under these particular circumstances it can be difficult, but I found the videos very helpful in understanding the material and you were very quick to respond to emails.
I would prefer to do call lectures rather than video lectures pre-recorded, it would have been a much better option in my personal opinion.
It is hard for online classes to be engaging in general

Professor Oliveira was my first professor here at USF. Since it was online and we didn't get to see each other I could tell how much he's cares about his students and the academic readiness. Also his lectures during this class gave me input on topics that intrigued me.
Really appreciate how Mr. Oliveira went in depth in the video lectures. It had me understand certain concepts more.
The time of the due dates of the assignments, sometimes inconvenient.
This is the best professor I could have started my college experience off with. He was also so open and easily accessible for me to get in contact with. I could tell that he genuinely cared about each student's success in the class.
Very good professor and willing to help students
Very good teacher!!! He's always very concerned with his students doing well and succeeding
Very kind and knowledgeable.
Very outgoing and easy to reach professor. All around stand up guy.
was a great teacher, made my whole summer semester the best that it could be
Wonderful instructor! Very knowledgable and professional

More interesting then previously had thought. Also enjoy the idea of doing a podcast since I listen to them frequently.

Since it was an online course it
Super interesting and engaging class.
The class was designed to keep students involved in the course, and ideas were shared in a way that made understanding much easier.
The class was very informative and I had a great time with it. The work was not as much as I was expecting, especially with the short semester.
This was an excellent class that I would very much recommend to those interested and even those who have never thought about taking this class!
