

DEFEND & PROTECT PARENTAL RIGHTS IN PUBLIC, PRIVATE & HOME SCHOOLS

OUR VISION: To restore schools to their primary function of educating our children.

OUR MISSION: To provide the necessary support and resources for parents and their children.

For whatever reason, public education in America has departed from its basic purpose and has become a political football for social change. Politicians have made laws and policy that have diminished California schools that used to be among America's best, but are now among the worst. Teachers aren't allowed to teach or maintain discipline. Schools are now unsafe. **We intend to change that.**

Liberty School Watch is a membership organization designed to defend and protect parental rights and religious liberty.

People want the government out of their personal lives. We will not let them use education to indoctrinate our kid's with their anti-God and anti-American agenda. We are going to fight back with every legal and Constitutional means possible.

BECOME A MEMBER!

Our interactive website allows watch-members to post real time information about what is taking place in their school for everyone to see. Action can then be taken to deal with any violations to the rights of parents over their children.

We will discover the chain of command on each and every decision that takes place in the schools and hold the person or persons responsible . We will be able to roll back any policies or decisions that are not within the legal rights of parents. Legal services will be employed to deal with violations.

The problem is not the actions of the political left; the problem is the inaction of the political right who allow the left to take over our schools, courts and our country.

MEMBERSHIP IS FREE.

Liberty Learning Center

Liberty Learning Center provides the facilities and organizational structure to partner with accredited homeschool organizations K-12 private schooling. A homeschool cooperative enhances the homeschooling experience. Some children thrive with the small group experience, so enrolling them in some group activities and classes will nurture that need.

Keeping classes and activities small enables families to reap the benefits of the classroom setting with none of the drawbacks. Volunteers can serve as helpers and aides, keeping the ratio of student to adult low, as recommended by educational research.

Homeschool co-ops are an indispensable resource

that can operate in a number of ways. In its simplest form, a homeschool co-op is a collection of families who choose to homeschool and who meet together in a shared space to conduct their academic activities together.
