NOSTALGIC

Looking back at the style of the past is not much different from reflecting on ourselves. ICYMI, we're all connecting with trends of the decades we've never experienced.

if you are feeling... **ECCENTRIC**

Anyone else done with keeping every little thought to themselves? Don't worry if you're riding high or dropping low, let them know, "This is where I'm at. No

more questions. Please and thank you!" Why be tongue-in-cheek when it's more fun to stick it out for the world to see? Let's ride the struggle bus in style by flaunting bright

and flowery designs with feisty sentiments that demand the attention of others, letting them know that adulting is hard but we got this.
