NATURAL PRODUCTS

## FALL 2025 CATALOG

## ABOUT US

### **Skincare with purpose.**

Everything we do—from our formulations to ingredient sourcing to packaging—is done consciously with your well-being in mind. Lovingly made in small batches in Ontario, all our products meet the highest standards for quality and efficacy.

### **Made with ingredients that matter.**

Each ingredient is ethically sourced and carefully selected to boost your skin health. It's not just about what we put in our products—it's also about what we choose to leave out. You won't find toxic, skin-irritating ingredients like parabens, phthalates or petroleum in our formulations.

### **Simple, safe, and natural. Just the way our bodies like it.**

In our pursuit of creating natural products, we stopped listening to mainstream beauty brands and started listening to our own bodies. It turns out that simple, natural ingredients aren't just good for us—they're what make us look and feel our absolute best.

Our journey began in 2008 when Bee By The Sea's founder was introduced to the sea buckthorn berry and its myriad of beneficial qualities. This discovery led to a year-long endeavour involving rigorous research, perseverance and dedicated experimentation – all in pursuit of creating a natural skincare product that combined the revitalizing powers of sea buckthorn oil with other skin-loving ingredients. It was through this labour of love that we discovered the perfect pairing that would become the hero ingredients of all our products: sea buckthorn and honey.

MEET OUR HEROES

## HONEY & SEA BUCKTHORN

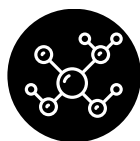

All of our natural skincare products are powered by our signature duo: **sea buckthorn and honey.**

Rich in essential nutrients, antioxidants, and omega fatty acids, sea buckthorn—also known as the beauty berry—helps heal, brighten, and protect the skin with one of the highest natural levels of vitamin C.

Honey, nature's golden healer, soothes, hydrates, and protects with its antimicrobial and humectant properties, drawing moisture into the skin and supporting a healthy, calm complexion.

## ECO DEODORANT

Switching to natural has never felt so fresh. Our aluminum-free deodorant is gentle on skin, effective against odour, and infused with a revitalizing blend that awakens the senses. Arrowroot powder and baking soda help absorb moisture, while shea butter, coconut oil, and beeswax melt into skin for a smooth, nourishing glide.

Packaged in zero-waste, 100% biodegradable materials, it's a sustainable choice that feels as good for the planet as it does for your skin.

**Available in Balance, Energize and Rejuvenate.**

**PRICE:** \$8.15 | \$16.00 MSRP

**SIZE:** 237 ml | 8 oz

## FREQUENTLY ASKED QUESTIONS

### Are your products 100% natural?

Our products are 95% natural or more, with a minimal amount of preservative to help extend shelf life. As with all natural formulas, we recommend enjoying them once opened—using them regularly rather than saving them for later. For guidance, look for the open jar symbol on the label, which indicates the product's shelf life in months.

### My cream looks different, did you change the formula?

Rest assured, our formula has not changed. However, because our products are made in small batches with natural ingredients, you may notice slight variations in colour or texture from time to time—this is completely normal and part of what makes each batch uniquely crafted.

### Are your products tested on animals?

We're proudly a 100% cruelty-free company—our products are never tested on animals.

### What is your return policy?

Returns of unopened and unused items are accepted at the purchaser's expense. Claims for damaged or incorrect items must be submitted within 3 business days of receiving your order. Please include clear photos of the damaged product and email them to [info@beebythesea.com](mailto:info@beebythesea.com). For any return requests not outlined above, please contact us directly for assistance.

### What is cold weather shipping? Do you ship through the winter?

Yes, we do ship through the winter! However, we hold orders when temperatures drop below -5°C/23°F—both here in Orillia, Ontario, and at the destination. We'll ship as soon as conditions improve in both locations, so there may be slight delays during extreme cold weather to ensure your products arrive safely.

### Are your products gluten free?

Our products do not contain gluten-based ingredients, but they are not made in a certified gluten-free facility.
