# BUSINESS BLOOMING IN KARIBA

# **CARIBBEA BAY**

Caribbea bay the blue diamond of Kariba, everyone loves it situated along the shoreline of the famous lake Kariba.

Caribbea Bay has a beautiful geography slightly below the sea level and also below the curvy tar and the golden mountain. Just because Zimbabwe is a land locked country in the middle of Southern Africa doesn't mean it lacks a coastline

The unashamedly view which reviews the blue waters of lake Kariba enables Caribbea Bay to be a favorite playground for Zimbabweans as well as foreigners making it the heart of Kariba

Deliberately fashioned in Sardinian style, Caribbea Bay is an ideal base from which to explore this unique part of Zimbabwe and enjoy sun field holiday in relaxed comfort. A stay at Caribbea Bay is always a stay to be remembered.

Drown View

# WildLife In Kariba

Ariba wildlife is unique as it provides a variety like game walks, game drives for elephant watching, zebras and crocodiles. The water holes are also ideal for bird watching which room to nature walks and pathways for stretching legs or having a sightseeing. Now, what I have mentioned above makes Kariba a resort town but most unique features or characteristics about wildlife in Kariba is the relationship between wild animals and human beings.

Wild animals and human beings have been coexisting for a long time such that animals adapted a certain pattern of behavior which is different from those animals in national parks. A perfect example is a Karibean Baboon. Normally animals are supposed to have that natural fear towards humans but through strong interactions between baboons and humans, baboons no longer have that fear to an extent that they can walk on broad daylight in the Karibean human society stealing or harassing women and little children. Some foreigners finds that behavior to be pathetic but at the same time interesting because it will be first time to witness such guts from an animal world and basically making wildlife in Kariba to be unique in a violent but special way.

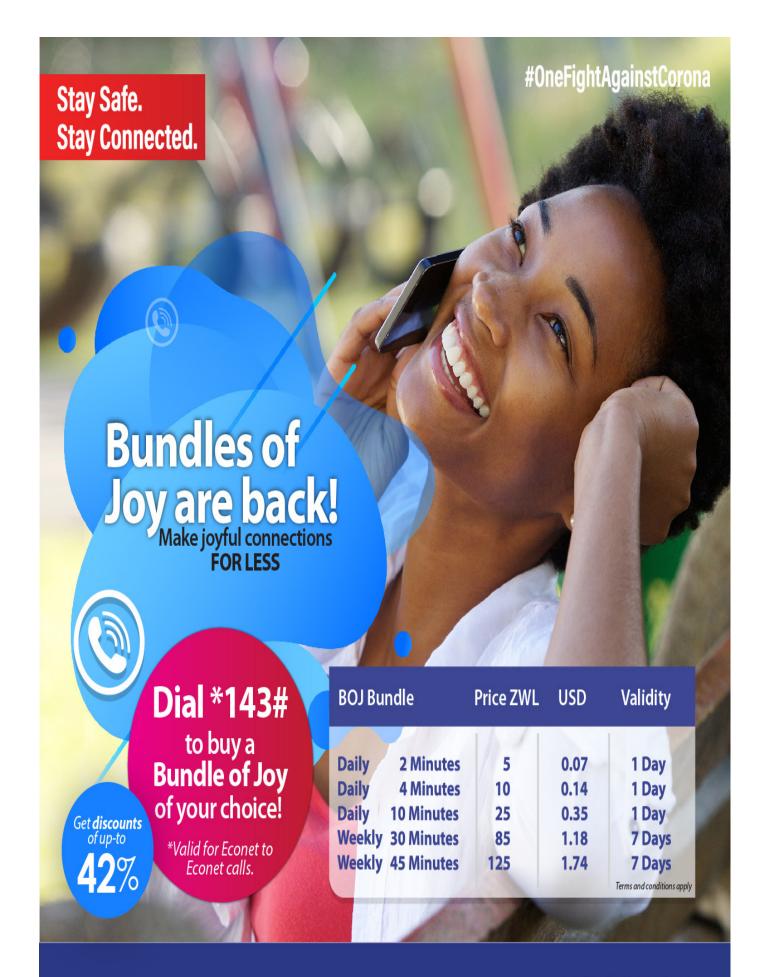

This also goes for Zebras, Elephants that they also lost natural fear towards humans. The whole wildlife package in Kariba makes the place's tourism to be unique enabling the atmosphere to be confusing for tourists in terms of animal behavior.

Personally I'm very much proud of how wildlife in Kariba became unique though sometimes it has negative impacts both on animals and people.

# FISHING

ishing is a fundamental aspect in Kariba if not the pillar. Kapenta is the popular type of fish species in Kariba and it has a special impact in the Kariba economy. Kapenta is also a rich source of protein used as usavi for meals, making Kariba life to be less expensive. Kapenta is divided into species; limnothrisa miodon and stolothrisa tanganicae and they form a major biomass of pelagic in the lake Kariba, swimming in large schools in the open lake, feeding 0n copepods and potential jellyfish. Limnothrisa miodon is a common specie in Kariba and about 20 000 tons of them are produced annually. Most of it salted, sundried and marketed in various size plastic packs. How to catch kapenta is a question of how equipped you are because the boats you own the more kapenta you catch.

he fishing rigs go out in the lake late in the afternoon and are ready to start fishing when it becomes dark. As soon as the kapenta are brought out of the water after each haul they are put directly into empty baskets also known as trays and each basket holding about 30kgs of fresh kapenta. They are immediately salted or iced depending whether the company sells its products dried or frozen. The salting or icing arrests further bacteriological deterioration which is likely to be very high considering the temperature at Kariba which is average

Drying takes about 4 hrs depending on the weather and during rainy or very humid days the semi dried kapenta are taken indoors or covered with polythene sheeting overnight and drying resume the following day. Another species which are targeted when fishing are tigers, breams and so forth. Both shoreline and boat fishing is an excellent sport in lake Kariba waters though some Kariba inhabitants are fishing for a living. The magnificent of all is tiger fishing, endemic to the wavy shoreline though sometimes it can be thrilling.

May to September is the absolute best time to fish as the water will be clear and the fish can see the bait/lure depending on the preferred method of fishing. Tiger fish can grow up to 15kgs and hooks must be carefully removed using specialist long handled pliers. Several safari camps and lodges offer fishing as one of the activities but sometimes on a condition to hire a houseboat on Lake Kariba and sail the lake, partaking in a little game watching at the same time. These houseboats have crew and tender boats that will take you into inlets and bays. Some of these houseboats and safari camps offer fishing equipment but of course this maybe limited so some people bring their own rods, reel, line and flies especially when they prefer fly fishing.

# WHO IS DJ SIR ROLLEX?

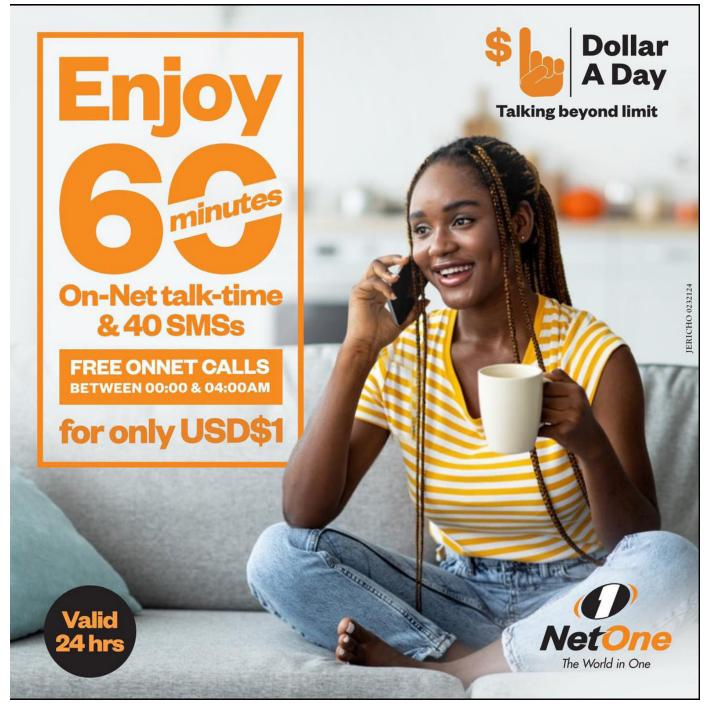

somagnificent that I believe the Gods of music favored him. DJ sir Rollex started his career in 2010 as a junior to DJ Shemy Jackport who inspired him positively. According to DJ Sir Rollex, Shemy created passion and aspirations in him and at the end a talented man was created hence a blessing to Karibeans as far as music is concerned "I am a DJ by passion but a photographer by profession" This is how he described his love for music and his commitment to his job as a photographer is a milestone completed.

Besides being a DJ, Rollex is also a successful photographer. Personally I have known him as a photographer and I almost believed that thus what he is best in until he showed me his golden side my very first day at Pagomo Grill said the Author.

I can live to tell that night, the immortal beings of everyone manifesting to his touch through the holy spirit of music.DJ Sir Rollex describes his triumph as one of the best DJ to be difficult because of negativity from other people and being on the top is a milestone completed.

# FOR THE LOVE OF NETBALL

y dream is always active but I am in a bottle in which thousands of people like me wish to escape. The bottle has boundaries and the only space out is very small." This is how Zvisinei Mupinda describes her situation as far as netball in Kariba is concerned. Zvisinei is a captain of a netball team called Green Valley "the team is my heart and I will do anything to protect it." Netball in Kariba is not that popular regardless of the participants being passionate about it. Since 2007 when the current green valley participated in Munyati ZESA

tournament where they claimed first position, Kariba netball has been on a low beam.

In Mukuzi claims that the short falls is due to lack of sponsoring, which is true because for the Green Valley to participate in the Munyati ZESA tournament they were being sponsored by Red cross who provided from transport to food and all necessities. The positive thing I'm proud to say is that Kariba netball is very much alive because I have many times visited their training grounds, tournaments and obviously proud of Zvisinei and her team for keeping up the spirit. I have been at the Nyamhunga Primary school tournaments where a lot of netball teams participated like

Benlar, Tichakunda and Green valley. The only problem is the zenith ceiling which is a hindrance to netball full recognition in Kariba. However there are teams like the Queens and ChiV city who are the Mashonaland west's league and they are doing so well.

Besides ZPC there are also teams like Wave who are in the division and teams like One City also known as boozers who plays football for social reasons. I can label Kariba as the best given how their football structure is while the town on the other hand is very small.

# SPEAKING OF FOOTBALL.

Kariba play in the top division of Zimbabwe Premier Soccer League. I feel proud to write about ZPC Kariba FC because it brought close the unknown about football to Kariba as well as recognition. In 2014 it was a milestone for ZPC Kariba to join the premier league because football clubs in Kariba had always been playing in the division. "Long back in the nineteen's we have seen ZARA, Lake Harvest and Padenga involvement in football.

These teams were the best but they failed to enter in the premier league especially ZARA" This was Mr. Ziome statement and this shows the essence of the promotion of ZPC Kariba into the premier league for Karibeans and also equally momentous. For people like fisherman ZPC Kariba created a business opportunity by hosting teams like Dynamos, Caps United and Highlanders.

# B ALOR FASHION

CGA-5
Lohayis
Lohayis

Pashion is a smart topic to discuss and it becomes more special and interesting if the person behind is classic. Balor by the name Perfect Kapasura is a brilliant fashionista who has a sweet taste in fashion.

There are a lot of people who might be equal with him in terms of fashion but what makes him unique is the momentum and the aura he carries given where he is from. Balor resides in Nyamhunga one Kariba.

Nyamhunga one is a popular hood in Kariba and from the onset nothing positive is expected there but at the end Balor is rising from there. He has managed create a name for himself breaking all the negative odds as far as fashion is concerned and being in the same realm with those who earn better. The most motivational thing about him is that he does side hustle to feed his fashion

thirsty and as little as he earn Balor is able to buy latest fashion. "My dream is to be popular and to be a model. I have managed to do the quarter job by being a popular fashionista in my area but it's not the whole package, I want to create a brand name that will live forever"

# "My First Boat Cruising"

By Author Jimmy Champ

a boat cruise marked the turning point of how I judged Kariba. I was born in Kariba, raised there but I never gasped that I can be an alien to my own place. The vibe, the bloomy atmosphere and the crazy tone of events made that day to be out of this world. My second experience in terms of boat cruising was in a houseboat which is different from cruise

y first time to be boats and this time I was looking to relax on a fastpaced Zimbabwe and again to immense myself in the scenic beauty of this inland sea surrounded by its majestic wildlife. However if you are looking to keep up the pace there are morning and afternoon cruises with cruise boats maybe for about 2 to 3 hours with drinks in hands while music will be loudly popping as u watch the iconic Kariba sunset or sunrise.

of gin and tonic as well as music but luxurious cruising is always the best because it's an ideal opportunity for singles, couples and small groups to experience the beautiful lake Kariba easily with full attention to every corner of the lake. The relaxing part in houseboat cruising is

As much as I am a fan about sun basking whilst cruising the lake and taking in the remarkable scenery, sundecks and Jacuzzi pools. Some relaxing activities includes fishing, game viewing and bird watching on the accompanying tender boats.

alk about Kariba, we talk about Boat Cruise. One ▲ of the most incredible leisure of all time. In Kariba they are several boats that provides the community and visitors (tourists) with special time for hire. All these types of boats offer morning to sunset cruising.

Tot only should we talk about just cruising: there's more to that. Activities such as Water skiing, parasailing, kneeboarding and many more. All these are offered with and company that provide Boat Cruising.. Some company names/boats are Golden hour, Zambezi, Malaika and so forth.
