

Sell Your Car Without the Hassle

Thinking of selling your car but dreading the time, effort, and uncertainty involved?

Our independent Concierge Sales Service takes stress out of the process by managing every stage of the sale on your behalf, from storage, preparation through to final handover.

Why us?

Established in 2019, I have spent more than 7 years providing secure vehicle storage and discreet concierge sales services, including representing clients through one of the industry's leading auction houses. Over that time, we have earned a reputation for professionalism, integrity, and exceptional results.

Drawing on this extensive experience, we chose to offer our concierge sales service directly to private owners, free from the constraints of any single sales platform. This approach provides our clients with greater flexibility, a more personal level of service, and a strategy tailored to the unique qualities of each vehicle.

By working directly with us, clients benefit from the same trusted expertise, meticulous attention to detail, and established network of buyers, while also enjoying a more cost-effective solution.

The result is a refined, transparent, and highly effective sales experience that delivers value for both seller and buyer.

Avoid the Common Pitfalls of Private Selling

With our service, you can avoid:

- Inviting unknown buyers to your home
- Potential scammers and fraudulent enquiries
- Time-wasting “tyre kickers”
- Missed appointments and no-shows
- The inconvenience of managing enquiries and viewings yourself

Our experience shows that conducting viewings at our dedicated facilities gives prospective buyers greater confidence, often resulting in higher conversion rates and stronger sale values. The final asking price remains entirely your decision, with professional guidance available if required.

Hideaway Secure Concierge Service

What's Included

Our comprehensive fixed-price package includes:

- Professional pre-sale valeting
- Secure car storage
- Sales listing support, e.g. assistance with descriptions
- Valuation guidance and market expectations
- Management of all enquiries
- Supervised car viewings
- Final handover management following written confirmation of cleared funds

We oversee every viewing under strict conditions, ensuring both your car and your interests are protected throughout the sales process.

Flexible Selling Options

As an independent service, we are not tied to any specific sales platform. Should your car not sell within the initial storage period, you retain complete flexibility to move it to an alternative sales channel while continuing to benefit from our secure storage facilities at our standard storage rates and we repeat the process at no additional fee. Or the car can be returned to you.
