Our Values

Our commitments to you as a charity

SAFETY

Safety is not just freedom from harm, but the presence of affirmation, support, and belonging. We work to create environments where TGNCI (Transgender, Gender non-Confirming, and Intersex) people can exist without fear

EMPOWERMENT

We support TGNCI individuals to live fully and authentically by amplifying their voices and ensuring access to safe and supportive spaces

LIBERATION

We believe in dismantling oppressive systems and building new structures where every gender identity is valued and free

SOLIDARITY

We work in active solidarity with other marginalised communities, recognising that our struggles are interconnected.

TRANSPARENCY

We are committed to honesty in our work, including how we operate, fundraise, and respond to challenges

ACCOUNTABILITY

We hold ourselves and others accountable for fulfilling their pledges in creating spaces that not only tolerate but celebrate gender diversity
