

Competitor Italian Ryegrass

Competitor Italian Ryegrass – Brand:

This Italian ryegrass is a diploid and performs well in cold regions. Italian ryegrass has excellent forage quality. For best results, we recommend spring planting and utilize forage through the summer.

Soil & Moisture:

Adaptable to a wide range of soil types and conditions. For maximum yield and quality results we recommend irrigation and a good fertility plan with your trusted agronomist.

Benefits:

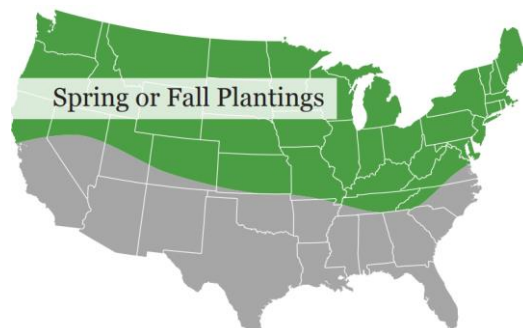

- ✓ Does not come to head the first year when spring planted.
- ✓ High energy compared to other Italian ryegrasses
- ✓ Deep roots and often used in a dairy's nutrient management plan
- ✓ Excellent Quality Feed
- ✓ Excellent palatability
- ✓ Responds well to lagoon water
- ✓ Disease resistant
- ✓ Silage or grazing
- ✓ Boot stage cutting is recommended for best quality

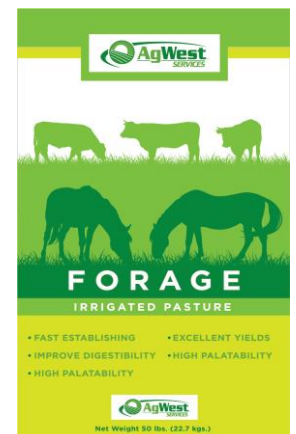

Planting Rates:

- Drilling / 20-25 lbs per acre
- Broad cast /35-40 lbs per acre
