

Horse Prime

AWS Horse Forage Pasture Grass Seed Mixture.

Formulated with grasses to achieve the optimal source of digestible fiber for horses. *AWS Horse Forage Mixture* is soft leaved, endophyte free, with excellent palatability. All of this is to achieve healthy animals.

Our high performing varieties of orchardgrass, timothy, meadow fescue and perennial ryegrass in the *AWS Horse Forage Mixture* is selected with specific purpose in mind to create a forage mixture that can achieve fast establishment, excellent persistence, grazing and traffic tolerance for horses and good winterhardiness.

Soil & Moisture - Adaptable to a wide range of soil types and conditions. For maximum yield and quality results we recommend irrigation and a good fertility plan with your trusted agronomist.
