

Thor Triticale

Thor Triticale:

Thor is an excellent forage facultative triticale that can be planted for the spring or winter. It doesn't require vernalization. Spring/Winter triticale adapted widely throughout the Pacific Northwest, Central Plains and Northern US. Thor has been winter hardy tested in Montana with good results.

Soil & Moisture:

Adaptable to a wide range of soil types and conditions. For maximum yield and quality results we recommend irrigation and a good fertility plan with your trusted agronomist.

Benefits:

- ✓ Facultative: Fall and Spring Planting
- ✓ Good Winter Hardiness
- ✓ Excellent Dairy Silage
- ✓ Excellent Tonnage
- ✓ Awnletted – short awns
- ✓ Disease resistant
- ✓ Performs well with lagoon water

Planting Rates:

- Drilling / 125 lbs per acre
- Broad cast / 140 lbs per acre

Planting Times:

Spring and Fall

<u>Imperial, NE</u> <u>2020</u>	<u>Winter Forage</u> <u>Trial</u>
