

Thor Triticale

Thor is a facultative triticale that can be planted in the spring or winter. It doesn't require vernalization. Spring/Winter triticale adapted widely throughout the Pacific Northwest, Central Plains and Northern US. Thor has been winter hardy tested in Montana with good results.

□ Benefits

- ✓ Facultative: Fall and Spring Planting
- ✓ Good Winter Hardiness
- ✓ Excellent Dairy Silage
- ✓ Excellent Tonnage
- ✓ Awnletted - short awns
- ✓ Disease resistant
- ✓ Performs well with lagoon water
