

CAPABILITY STATEMENT

CONSULTING | DESIGN & MANAGEMENT FOR CIVIL WORKS
ENERGY & ENVIRONMENTAL PROGRAMS | PLANNING

35+ YEARS OF EXPERIENCE

Military, Municipal & Industrial Construction
Water, Wastewater, Dams & Levees, Power & Infrastructure Programs
International Infrastructure

About Us

Kompas Rose, LLC (Kompas) is a Service Disabled, Veteran Owned Small Business (SDVOSB) practicing principles of client focused planning, design management and construction activities. Building on more than 45 years of military and professional consulting experience, Kompas fills the gap in integrating proven expertise by assisting our clients with complex public works projects and federal programs addressing USEPA, municipal, state, and federal mandates. We are the clients advocate early in the planning stages, during design and construction through close out. Dedicated to serving our Veteran community, Kompas is a 100% Veteran owned small business providing meaningful opportunities for our Veterans in the built environment.

DIFFERENTIATOR

Embracing the Mission

From concept, to planning and execution, Kompas understands the mission drivers that influence critical decision making which fosters the collaborative exchange of ideas and solutions. We understand that although the best laid plans and intentions are made early, site conditions, operations and regulatory expectations can influence execution strategies. Those influences need to be met head on and quickly resolved to maintain schedule. Kompas has demonstrated results in meeting those challenges and our success is reflected in the relationships and recommendations of our current and past relationships with clients and regulators.

Geographic Experience

Kompas staff has a broad range of successful, personal experience working for the Federal Government throughout the country and the U.S. Territory of Guam. **See reverse side for details.**
