Ventilation Fan

The air in the booth can be circulated in three minutes, to ensure it won't be stuffy in the booth.

Lighting

Equipped with 4000K daylight color temperature LED lighting system (150 LX), it would satisfy your work light needs.

In the event of additional power requirements, a backup power supply is readily installed inside the booth.

Sound insulation tempered glass

Safety

Our booth adopts train type sound insulation tempered glass, which meets the requirements of sound insulation and meets the safety and stability of installation and use.

Simply Installation

For PET panel installation

Magic tape band is used for the back side installation of acoustic materials. It is environmentally friendly and odorless, comply with European ROHS standard

Nylon Carpet

Non-slip, sound-absorbing

We use custom-made nylon carpet, which only needs one piece of carpet for a booth.

The embedded installation method ensures the level of the booth floor and is not easy to slide.

At the same time, nylon carpet has good sound absorption performance, which can meet our requirements for acoustic

220V Power

Work anywhere

Our booth is equipped with 12V-USB power supply and power rated for 100-240V/50-60HZ, complying with common equipment. The three control switches control one lamp and two exhaust fans respectively.

Optional

Features

Easy Installation

Modular

Structure of Silence Booth

Modular and quick installation: the assembly is completed within 3 hours at the fastest...

PART 04

Applications

TEMPORARY OFFICE

Convenient office for people waiting in the airport; a private space equipped with network, for charging gadgets, and temporary office lounge.

SOLO OFFICE

A solution to the cost of office rent; functions as a private office without decoration concerns

MEETING POD

A convenient conference or meeting pod for small groups (2 to 6 people); the Silence Booth can be set-up in places where there is a need for groups of people to meet

MUSIC INSTRUMENTS PRACTICING

A convenient music or sound studio that allows musicians to concentrate on their music without hearing the other people practice; it serves as a stable acoustic environment for playing music; recommended for music schools

EDUCATION TRAINING

Our Silence Booth meets the volume demand of one-on-one education and blocks the external interference factors to allow students to concentrate on their work.

STUDY ROOM

A quiet and exclusive space conducive to studying; recommended for libraries and study areas in schools

PHONE BOOTH

For open-plan office environment, serves as a private and soundproof phone booth; solves the physical noise problem when talking to clients

WORKSHOP

In a noisy workshop, participants cannot hear each other clearly and they would need to go out of the room to make a call. The Silence Booth solves all these problems
