**WHEREAS**, the Village of Jordan's Board of Trustees desires to use Building Energy Benchmarking, a process of measuring a building's energy use, tracking that use over time, and comparing performance to similar buildings, to promote the public health, safety. And welfare by making available good, actionable information on municipal building energy use to help identify opportunities to cut costs and reduce pollution in the Village of Jordan; and

**WHEREAS**, as such the Village Board desires to establish procedures or guidelines for the village staff to conduct such Building Energy Benchmarking; and
