

Vendor Managed Inventory (VMI)

When it comes to customer service, Cenla Bolts & Supply is committed to providing outstanding value and convenience. We offer personalized and hands-on VMI services to manage inventory for all your operational needs.

Our full-time, dedicated, sales personnel are focused on customer services in every market ensuring daily, weekly, and monthly replenishments are fulfilled for all customer orders. Our prompt and reliable service eliminates the worry of experiencing overstock or stock-outs. We even offer just-in-time (JIT) hardware shipments to accommodate your operational demands. Additionally, we provide emergency and after-hours service for your most unexpected needs.

Providing quality service When you need it!

We utilize various inventory replenishment methodologies such as simple min/max, visual identification, kanban, and other solutions to fit your needs. Our specialty barcoded and customer specific labels assure clear product identification and inventory management ease.

We support our entire product line through VMI. Whether your needs are for maintenance fasteners, industrial supplies, production line items, or construction products...

We've got what you need!

Cenla Bolts & Supply

Cenla Bolts offers VMI/Binstocking to virtually every industry in central and south Louisiana, these industries include agriculture, construction, forestry, MRO and energy production. We provide a large variety of bin and storage variations to fit your inventory demands.
