# The Problem

- Most courses get lost online — limited digital presence makes it harder to stand out.
- Local sponsor dollars are left on the table — no effective way to showcase partners.
- Members and guests expect more — modern, engaging digital experiences keep them connected.
- **The fastest-growing age group in golf is also the biggest consumer of livestreams** — yet almost no courses take advantage of this.

# The Solution: fore.tv

- Livestream your signature holes or driving range in HD
- Ad overlays for local sponsors, events and clubhouse specials
- Embed your feed on your course's website and clubhouse TVs
- Turnkey setup: we handle install, streaming and sponsorship overlays.

# Why fore.tv?

- Boost course exposure with 4K livestreams broadcast to your website, clubhouse, and Fore.tv
- Unlock new sponsorship revenue through premium local ad placements
- Enhance the golfer experience with engaging digital visibility on and off the course
