

Paint Procedures

1. Review the Community Guidelines.
2. The ARC form is available to download from the Soleil website, on the communities page, click on the ARC Application.
3. From the communities page, you can also access the Approved Paint Schemes to select your choice of color for the house, trim, garage door, and front door. Write down the number and name for each chosen color. These numbers will be placed on the ARC Application. *NOTE: It is not permitted to paint the same body color as the neighbor on either side of you or across the street.*
4. Using the colors you selected from the Sherwin Williams options, homeowners can choose to purchase the paint in any brand name they wish. There are 30 color options. Some color options, labeled “universal colors,” are to be used for trim and doors only.
5. Paint a square of each color from the scheme above the garage door for the ARC to see.
6. Submit the ARC Application to Soleil for distribution to the ARC Committee for approval. Once the ARC request is approved, Soleil will send you an approval letter and the homeowner may begin painting.
