

Building Futures Initiative: Community Hub Revitalization Stakeholder Register

2024-03-19

Prepared by:
Brandon Jeanpierre

Stakeholder Register is a Living Document Initially Build Upon the Initial Project Charter and is anticipated to grow as additional components are detailed.

The stakeholders that can affect and will be affected by the project are recorded below:

Name	Role	Key Need	Priorities	Communications
Brandon Jeanpierre	Program Director, Project Manager	Successful execution and achievement of project objectives within budget.	Ensuring comprehensive support for the local community, particularly focusing on individuals experiencing homelessness, job seekers, and those in need. Effective management of project resources and adherence to individual autonomy and social responsibility principles.	Regular updates on project progress, including key milestones, budget updates, and any deviations from the project plan. Timely communication on issues or challenges that may impact the project's success. Preference for email communication and bi-weekly meetings to review progress and discuss any concerns.
Building Owner(s)	Property Owners	Ensure the building's safe occupancy, protection of the property's value, and alignment with the project's vision.	Protecting property interests, ensuring compliance with the terms of any lease or agreement, and maintaining the building's integrity.	Quarterly meetings for updates, lease negotiations, and building inspections. Direct communication with the Project Manager for any property concerns.
City Officials	Regulators & Approving Authority	Ensure the project aligns with city regulations, zoning laws, and city development goals.	Prioritize safety, compliance, and alignment with urban development goals.	Periodic review meetings, compliance checks, and updates on necessary certifications. Communication through official channels and regulatory bodies.

Building Futures Initiative: Community Hub Revitalization Stakeholder Register

Church Leadership & Members	Religious Group	Foster community growth, provide spiritual and moral guidance, and ensure the project aligns with religious values.	Spiritual guidance, community outreach, and support for community members in need.	Monthly meetings to align the project with church values and goals. Participation in community outreach and support programs.
Local Community Members	Community Stakeholders	Benefit from the project's resources and support initiatives and ensure the project meets community needs.	Community engagement, access to resources, and improvement of community wellbeing.	Regular community forums, suggestion boxes, and feedback sessions to ensure the project aligns with the community's needs.
Preservationist Groups	Conservationists	Ensure that the historic or architectural value of the building is preserved and protected.	Advocacy for building preservation, ensuring any modifications align with preservation principles.	Monthly consultations to review building plans, updates on preservation efforts, and feedback sessions on any building modifications.
Local Businesses	Business Stakeholders	Seek opportunities for collaboration and ensure the project brings positive economic impacts to the area.	Business growth, community engagement, and collaboration opportunities.	Business forums, collaboration meetings, and sponsorship opportunities to engage with the project and leverage its resources.
Volunteer Groups and Investors	Support & Financial Stakeholders	Provide support, both in terms of manpower and finances, and ensure the project achieves its goals.	Effective use of volunteer resources, return on investment, and project success.	Regular updates on project progress, volunteer opportunities, and financial reports to ensure transparency and alignment with investment goals.
