 Servicing west Chicago and surrounding suburbs

 Mon-Sat 8am-6pm  
Emergency after hours services

# PROTECT YOUR MOST VALUABLE ASSETS EASILY & ECONOMICALLY

Most of our equipment comes with a 5 to 10 year manufacturer parts warranty that often includes labor and extended coverage, saving you time and money.

A service agreement is not an extended warranty; it ensures that manufacturer's maintenance requirements are met to keep your system covered.

**TINNES SERVICES**

**YOUR ONE-STOP-SHOP  
HOME SERVICES PROVIDER**

## WHY SIGN UP?

### PEACE OF MIND

Comfort Club members receive free maintenance, so you'll sleep well knowing that your equipment is well-cared for. If it ever breaks down, we'll be there to help!

### PRIORITY SERVICE

Be first in line for emergency service visits.

### DISCOUNTS

Receive discounts on all parts and labor for repairs in addition to the money saved by being a member!

### REMINDERS & SCHEDULING

Get reminders via text or email when it's time to schedule your next visit, and even schedule online at your convenience!

### INCREASE EQUIPMENT LIFE

Extend the life of your equipment and save money with proper maintenance.

### SERVICE RECORDS

We store your service records and make them available when you need them.

### IMPROVE IAQ

We spend almost 90% of our time indoors. The Comfort Club provides services that improve indoor air quality (IAQ) and aid in reducing airborne allergens and bacteria.

### ALL-IN-ONE HOME SERVICES

Tinnes Services does more than just comfort system maintenance - if you've got a problem in your home, we can provide a solution!

## MAINTENANCE IS KEY

Your comfort system works continuously throughout the year, so a number of unique components need adjustment, calibration, lubrication and cleaning before the start of each heating and cooling season. Your system can still work without maintenance, but not as efficiently. During a maintenance visit, several components are inspected and serviced to prevent failures and extend the longevity of your investment.

## DIRTY AIR FILTERS ARE THE #1 REASON SYSTEMS FAIL

Air filters trap dirt, dust and allergens that circulate in your home. They eventually become clogged and force your system to work harder, resulting in poor air quality that can trigger allergies, asthma and other health complications. To prevent this, we recommend checking air filters every month and replacing them when they get dirty (ideally every 30 to 90 days depending on filter type). We've got you covered - your Comfort Club membership includes an annual supply of filters for your specific system!
