

## Student and Instructor Evaluation Policy

Evaluation at AlliMedCare is a two-way process to ensure continuous improvement in teaching and learning outcomes.

- **Instructor Evaluation:** At the end of each term, students will be invited to complete anonymous evaluations of their instructors, focusing on teaching methods, course materials, and overall effectiveness. This feedback helps improve teaching practices and course structure.
- **Student Evaluation:** Instructors will regularly assess students through a combination of quizzes, tests, assignments, and clinical evaluations (if applicable). These assessments are designed to measure students' progress toward meeting the course learning objectives.

## AlliMedCare Institute LLC – Student Record Access Request Form

- **Student Name:** \_\_\_\_\_
