

This is a Safe Space for Autistic people, including our staff and volunteers - this means:

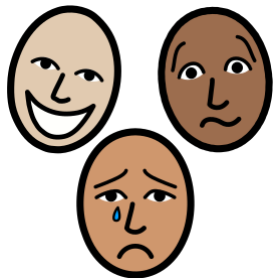

We prioritise Autistic
neurology

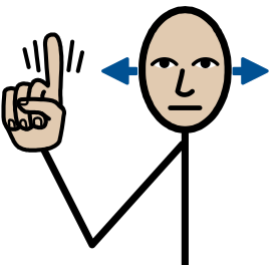

We don't expect anyone to
mask their behaviour or
identity

Everyone can choose how
and when they
communicate

People are not judged on
how they regulate
emotions

People are not judged by
their words, expressions or
behaviour

We respect the right to space,
time, autonomy, privacy and
the right to say no
